

California Do Not Track Disclosures

“Do Not Track” is a privacy preference that users can set in their web browsers. When a user turns on a Do Not Track signal in their browser, the browser sends a message to websites requesting that they do not track the user. For information about Do Not Track, please visit www.allaboutdnt.org

At this time, we do not respond to Do Not Track browser settings or signals. In addition, we use other technology that is standard to the internet, such as pixel tags, web beacons, and other similar technologies, to track visitors to the website. Those tools may be used by us and by third parties to collect information about you and your internet activity, even if you have turned on the Do Not Track signal. For information on how to opt out from tracking technologies used on our website, see our cookies policy which is available here: <https://ae.godaddy.com/agreements/ShowDoc.aspx?pageid=24668>
