

Chatterbox Parrots LLC

Purchase Contract

The purpose of this contract is to offer protection to the purchaser for a major health problem that was unknown at the time of sale. There is no guarantee on specific personality or future behavior of the bird(s).

There is NO guarantee on un-weaned baby birds, therefore the health portion of this contract becomes null and void if something happens after the bird(s) leaves our business.

Our birds are monitored daily to ensure their health and well-being and to the best of our knowledge, they are healthy and disease free. No sick bird will knowingly be sold. Any known abnormalities will be listed under comments. As some health conditions can only be detected by an avian veterinarian, we urge you to take your new bird(s) for a checkup so that way you may receive an expert's opinion on their health status.

Examination and testing by a licensed Doctor of Veterinary Medicine must take place within 3-day (72 hour) period from time of pickup or delivery. If the bird does not pass the vet examination as healthy, the sale may be negated. If the veterinarian determines the bird has a major health problem, please return the bird, along with the veterinarian's statement to us. Any laboratory testing the veterinarian may do must be performed within the 72-hour period for this agreement to apply. If any problems are found, we will, at our option, either replace the bird with one of equal value (as soon as they become available) or refund the purchase price. We do not assume any liability for veterinary expenses you may incur.

No warranty or liability is expressed or implied in the case of injury or illness caused by or to the bird by or to other pets or humans in the household. Return the bird(s) under this contract to Chatterbox Parrots LLC at 14035 Arbor Walk Drive, in the city of Denham Springs, Louisiana, 70726.

In the event of death of the bird within 72 hours of purchase, a qualified

avian vet must perform a necropsy to determine the cause of death. The necropsy report, as well as the uncut leg band from the bird must be provided to Chatterbox Parrots LLC within 5 days.

As with any living animal, fear, loss of appetite, lack of sleep, chilling, heat prostration and other forms of stress can make a bird susceptible to illness potentially causing diarrhea, respiratory infection and a variety of other problems. Exposure to other birds or environmental factors may also negatively affect a bird's health. A bird could change from good health to being acutely ill in 3 days. Therefore, a guarantee on a bird's health can only be made for a short period of time.

Purchase Agreement: I _____, the buyer understand that I am purchasing a _____, total purchase price being \$ _____

A 25% Non-refundable Retainer Fee applies to the purchase and signing of this contract in the amount of \$ _____

ADDITIONAL COST MUST BE PAID UPFRONT IN FULL

Additional disease testing: Prices per Avian Biotech \$ _____

Testing

Choices _____

___ Polyomavirus Vaccination: Requires 2 vet visits; One for initial shot and Second for a booster shot. When choosing this option, we must know right away as the shots must be given three weeks apart. \$150

___ Shipping charges if applicable \$250 to most states. (Pricing is subject to change without notice by airline)

Upon our discussed date of pickup/delivery, if you are unable to meet that requirement a \$10 charge per day, per bird must be paid upfront. Should you pass a 3-week mark of the weaned bird we will assume you are no longer interested, and the bird will be available for adoption to another buyer. The ONLY exception to this is if one of us is experiencing a natural disaster in our area.

___ I understand that the 25% retainer fee is non-refundable once this contract is submitted.

___ I understand that all additional fees must be paid in full upfront

i.e., testing, vaccinations and past weaning date dues

___ I understand that my bird(s) will not be shipped until weaned and full shipping payment must be paid in full prior to shipping.

___ I understand that when shipping that weather and airport issues may delay my bird(s) being shipped.

___ I understand that once my bird(s) is in my home it may need time to adjust to its surrounding.

___ I understand the importance of having an Avian Veterinarian.

___ I understand that my bird(s) requires hours of daily interaction, needs mental stimulation, requires a healthy diet, a safe space and may go through hormonal changes.

Throughout the duration of the weaning process, we will notify you with either photos and/or videos plus update you with weight and eating changes. We offer Roudybush Maintenance Crumbles, Chop consisting of a variety of, vegetables, grains and fruit and occasionally Higgins Safflower Gold for Conures and Cockatiels.

Each bird will be DNA sexed if not sexed linked and one chick from each clutch will be tested for Polyomavirus and PBFD (Beak and Feather Disease). Paperwork will be provided.

___ I understand I will receive all the appropriate paperwork due to me.

If you are having your bird shipped to your nearest airport your DL or State ID needs to be valid for an airport to allow you to pick up your bird(s). Also, when shipping I must have exactly the information as it appears on your form of ID to provide Delta Airlines.

Purchasing a non-pet

___ I understand by purchasing a bird(s) that are a non-pet I will need to pay full price for the bird(s) and no refunds are to be given should I opt out for any reasons.
