

Operation Tribulation Rescue

Issue Date: 16 March 2020

Languages

The Operation Tribulation Rescue website content (except for the End-Time Bible Prophecies and Languages sections) can be viewed as a PDF (Portable Document Format) file in the languages shown below. Skilled translators have produced these translations that are more accurate than the Google Translate versions or are not available through Google Translate. These translations can easily be saved, printed or distributed electronically. If you do not see your language represented below, and you have the ability and desire to translate the English version into your language, please contact us (see [Contact/Join Us](#)). As translations become available, they will be added to the website. The Bible translations that were used for this website (in English), unless otherwise noted, are the New International Version (NIV) and the New American Standard Bible (NASB, for the End-Time Bible Prophecies section).

Instructions for Translators

- Use the English translation (if possible) as the template for translating into another language.
- The top two lines of text should be in English. The remainder of the document will be in the chosen language.
- First Line (in English): (Operation Tribulation Rescue – Language, 20 March 2017) – The first line is in English. “Language” should be replaced with the language being

translated, such as Hebrew or French. The date displayed on the translation should be the same date as the English translation that the document is based on, not the actual date.

- Second Line (in English): (www.tribulationrescue.com) – The second line is the Operation Tribulation Rescue website.
- Below the Second Line: Everything below the second line will be in the chosen language. The third line should be the same date as the first line.
- The translation should be sent to Operation Tribulation Rescue as a PDF (Portable Document Format) file. If this is not possible, a JPEG (Joint Photographic Experts Group) file is also acceptable.
- When translating quotes from the Bible (there are many), it would probably be more accurate to refer to a reliable translation of the Bible in your own language than translating from the English version.
- Once a translation is posted on the OTR website, it may be necessary to make minor changes to the document to correct mistakes made in the translation process. If this occurs, a revision number should be added as follows. The first line of the document will then display; (Operation Tribulation Rescue – Language, 20 March 2017 – Revision 1). If a second change needs to be made, “Revision 2” will be used and so on. The third line (in the chosen language) should also reflect the revision as follows; “20 March 2017 – Revision 1”. Translators should try and be as thorough as possible, to minimize the need for revisions.

Common Languages

The languages below are available on the Operation Tribulation Rescue website as PDF files. The following URLs are valid Operation Tribulation Rescue web addresses:

OperationTribulationRescue.com, TribulationRescue.com,
OperationTribulationRescue.org and TribulationRescue.org.
