

Annual Report

2020-2021

Introduction

Our world has changed. COVID -19 has impacted us in ways never seen or even imagined before. The scope of our daily lives remain limited, fraught with danger. While pandemic conditions do not make fertile ground for thankfulness, showing gratitude is our utmost importance, especially in trial circumstances. When we give thanks for everyday things, we give happiness a little boost and train our minds to see the good even amid so much uncertainty. While schools have been shut for an entire year since March 2020, distance learning has ensured that students do not miss out on quality education.

At Holy Angel's Academy, the management, teachers and parents have collaborated to give our students the best possible during these testing times. We humbly thank our parents and well wishers who generously contributed towards nonstop learning so no student is left behind. Unprecedented as has been this academic year, we have seen nearly all familiar practices of the school year albeit online. We journal the activities and events organised during this most challenging year in the following pages.

With the ongoing Corona pandemic coupled with National lockdown, the school could not continue its normal schedule and was forced to shut down in the month of April 2020. Only the students of Class VII and VIII were given the privilege to continue classes with strict compliance to standard operational procedures (SOP) given by the Govt. of India and the State Government. Only a few activities were taken up within the school campus for students in Classes 7 and 8.

Celebration of India's Independence Day 2020

On being the one of the most important days of the nation, the school decided to observe the day with a March Pass parade & the National flag hoisting, maintaining social distance between participants and staff members. Besides singing the national anthem, the celebration was accompanied with a cultural program to invoke patriotism and inculcate virtues like humility, brotherhood and tolerance. The program was conducted in the presence of hon'ble Member of Autonomous District Council, Tamenglong, Smt. Ramningle Pame, Chairperson of Education Department as Chief Guest. In view of the ongoing pandemic, certain personal medical necessities like hand sanitizers and masks were also distributed for the students and staff by the Chief Guest.

Observance of Teachers' Day 2020

The third teachers' day observance was not as grand as the previous year due to ongoing Covid-19 pandemic. Only a few students of Class VII and VIII who remained for schooling gathered around the teaching staff, singing songs and making them happy. The students also gave away gifts prepared by them to their teachers as a token of love from the bottom of their hearts. Towards evening, a common meal for all staff and students was served by the school management as a sign of appreciation for their zealous work, commitment and dedication to their professions.

Gandhi Jayanti Day, the 2nd of October 2020.

As the national lockdown and its SOP were relaxed following the decreasing Covid-19 cases in the state, a women's volleyball tournament was organized, open to the all surrounding village teams in commemoration of the birthday of the Father of Nation. The match began with a brief opening ceremony where the principal of the Holy Angel's Academy Principal highlighted the significance of games and sports amongst the youth and students in particular. In total, six (6) teams from two villages and host Tata Trust sports wing of Holy Angel's Academy participated in the event. The cash award was won by the host school team.

Winning 2nd Kaiguiyang Memorial trophy at Inem, 13th January

On receiving the invitation from Inem, the school team of ten girls who were undergoing training under Tata Trust was sent to represent the school in volleyball tournament. After five days of meeting their opponent teams from surrounding villages, the school team came out victorious in championing the volleyball trophy. It was a great day for all of us to have won the trophy unexpectedly. Much applause was rendered to the team members including the two coaches.

Re-opening of the School

Amidst Pandemic, school was reopened on 10th February, 2021 for all classes with hope that time will heal the world. With sincere prayers in our hearts, we began the year by organizing a prayer service at the Angelian Hall. Church elders and pastors of the neighbouring villages were present with us invoking to the Almighty God to help and protect us all. Our sincere gratitude goes out to the members of the founding family, the school management for their vision, guidance and encouragement as always especially during this unfamiliar period and tribulations of uncertainty. As per the current admission record, our intake this year is 330 students from across neighbouring villages including students from Assam and Nagaland.

School Level Singing Competition

As a part of the School academic calendar, the annual school level singing competition was held on 20th March at School campus. The competition took place in three categories namely Sub-junior, Junior and Senior. Many students took part performing at their best level with great zeal. From their way of performances, we can contribute our proper guidance to excel in their hidden talents.

Covid Relief Package to Rural Poor

At the onslaught of corona virus spike in our country, many rural students and youngsters who went to mainland India to pursue their dreams and find fortunes returned to their native villages bringing about pandemic in the region. This was how the virus began to find grip in our state particularly in Tamenglong district. There was panic, fear and uncertainty in the minds of the rural people who apprehended that food crises may creep in to make the situation worse.

In this regard, Haitung Goodwill Foundation stepped in to reach out to the most vulnerable people of villages under Tamei and Tousem sub-divisions including migrant labourers, senior citizens, daily wage workers, widows and differently abled persons by way of extending relief measure, distributing rice to targeted families in 15 villages. As many as 1600 families were helped by giving them 25 kilos each of polished rice to mitigate their suffering.

The organization is happy and grateful to FCI Deputy General Manager®, Govt. of Manipur for allowing us to lift the commodities at a subsidized rate. Had it not for their consent to our request and their generosity we could have not achieved this target. The programme of distribution began on 20th May and was completed on 30th May 2021.

Tata Trust Ongoing Programme

The ongoing Tata Trust football coaching that was initiated in 2019 continued for a couple of months and was discontinued for the rest of the year because of the pandemic and Govt. of Manipur orders for closure of all schools, sports and games complexes. These children have learned a lot of the techniques and rules of footballing through their coaches. Given a meagre sporting play field within the school campus, they have made good use of the opportunity to excel themselves far more than the first day they stepped foot on to school premises.

Conclusion

The school management parents and founding members of the academy are happy and satisfied with the way the school runs and function in this remotest corner of the state of Manipur with little or no basic amenities. Special thanks to founding family members, benefactors, parents and well wishers for their unfailing support and help whenever we are in need of one thing or the other. May God bless them and safe them from all harm.
