

Spellbound Tans

Complete Guide To Your First Spray Tan

**WE'RE THRILLED TO HAVE YOU!
THANK YOU FOR TRUSTING US WITH YOUR GLOW
AND LET'S MAKE THIS A MAGICAL EXPERIENCE!**

WE ARE PARTNERS

Client prep is 50% of the job
when it comes to having a
BEAUTIFUL sunless tan. We can
give you an amazing tan that is
expertly applied but if you have
not prepped properly or don't
follow the aftercare instructions,
it will affect your end result.

PREP CHECKLIST

-  Have you **removed** all makeup, deodorant, perfume, powder, oil and lotion prior to your appointment?
-  Did you shave and exfoliate at least **8 hours** **prior** to your appointment?
-  Manicures, lashes, pedicures and waxing **should be done 24 hours prior** to your spray tan appointment as those treatments will leave residue on your skin, remove your sunless tan or inhibit proper development of the sunless solution.
-  Have you had a sunburn, chemical peel or laser treatment in the last 6 months? Your skin continues to peel and heal even after the visual side of the burn or treatment has disappeared. Spraying on top of **damaged skin will cause patchiness** and make peeling more noticeable.

COMPLIMENTARY DISPOSABLES

- Hair covers
- Lip protectant
- Nose filters
- Hair ties
- Disposable thongs/bras
- Tanttoo stickers (for nude tanning)
- Breast petals (provides nipple coverage)

REGULAR RINSE SOLUTION

REGULAR RINSE ADVANTAGES

- **Standard rinse time** (8-12 hrs)
- Great for:
 - Evening appointments – easy to sleep in and wake up with a gorgeous tan!
 - Ideal when you won't be able to rinse within a few hours
 - Color longevity – while both types deliver a beautiful tan, regular solutions tend to wear longer
- Customizable Depths:
 - We carry a range of solutions to achieve the perfect color; you decide your ideal shade at your appointment!

RINSE TIME

MUST leave on 8-12 hours before rinsing

- **MEDIUM** – a nice medium tan depth without the "over baked" look (perfect for Brides)
- **MEDIUM/DARK** – an enhanced medium version with a slightly deeper darker tan
- **DARK** – the darkest solution in the lineup with lots of deep color

RAPID RINSE SOLUTION

RAPID RINSE ADVANTAGES

- **Quicker rinse time** (2-5 hrs)
- Great for:
 - Morning tan appointments
 - A last minute night out – get a spray tan in the morning, rinse at lunch and go out later than night
 - Squeezing a spray tan into a jam packed day!
 - When the weather isn't spray tan friendly – rain or humidity in the forecast
- One solution, customized by your rinse time— shower sooner for a light glow or wait longer for a deeper tan.

RINSE TIMES

LIGHT – rinse at 2 hours

MEDIUM – rinse at 3 hours

MEDIUM/DARK – rinse at 4 hours

DARK – rinse at 5 hours

RAPID solutions left on longer than 5 hours may result in an undesirable color

GET READY TO GLOW!

Undress To Your Comfort Level – Place your clothing and personal items in the designated client bin.

Remove Jewelry – Store rings, bracelets, and necklaces in the provided dish.

Tie or Clip Hair Up – Keep your neckline clear and tuck hair into a hairnet.

Protect Your Lips – Apply a layer of lip balm before your session.

Freshen Up – Use provided wipes to remove any residual products (makeup, deodorant, lotion, etc.).

Relax in a Silk Robe – Feel free to wrap up while you wait for your session to begin.

Retail Products!
