

Spellbound Tans

Complete Guide To Your First Spray Tan

 THANK YOU FOR YOUR BUSINESS AND ALLOWING
ME TO DO WHAT I LOVE

WE ARE PARTNERS

Client prep is 50% of the job
when it comes to having a
BEAUTIFUL sunless tan. I can
give you an amazing tan that is
expertly applied but if you have
not prepped properly or don't
follow the aftercare instructions,
it will affect your end result.

PREP CHECKLIST

-  Have you removed all makeup, perfume, powder, oil and lotion prior to your appointment?
-  Did you shave and exfoliate at least 8 hours prior to your appointment?
-  Manicures, pedicures and waxing should be done 24 hours prior to your spray tan appointment as those treatments will leave residue on your skin, remove your sunless tan or inhibit proper development of the sunless solution.
-  Have you had a sunburn in the last 6 months? Your skin continues to peel and heal even after the visual side of the burn has disappeared. Spraying on top of a healing sunburn will cause patchiness and make peeling more noticeable.

FREE DISPOSABLES

- Nose filters/masks
- Eye covers/safety glasses
- Lip protectant
- Hair ties
- Disposable thongs/ bras
- Tan stickers (for nude tanning)
- Breast petals (provides nipple coverage)

FOR YOUR PROTECTION, ALL SURFACES AND THE CLOTHES BIN ARE DISINFECTED IN BETWEEN EACH CLIENT

REGULAR RINSE SOLUTION

REGULAR RINSE ADVANTAGES

- **Standard rinse time** (8-12 hrs)
- Great for:
 - Evening appointments – easy to sleep in and wake up with a gorgeous tan!
 - When you won't be able to rinse within a few hours
 - Color longevity – while both types deliver a beautiful tan, regular solutions tend to wear longer
- There's a different solution for each depth of color – you determine what color you desire at the time of your appointment

RINSE TIME

MUST leave on 8-12 hours before rinsing

- **LIGHT** – great for a soft touch of color or "winter" tan
- **MEDIUM** – a nice medium tan depth without the "over baked" look (perfect for Brides)
- **MEDIUM/DARK** – an enhanced medium version with a slightly deeper darker tan
- **DARK** – the darkest solution in the lineup with lots of deep color

RAPID RINSE SOLUTION

RAPID RINSE ADVANTAGES

- Quicker rinse time (2-5 hrs)
- Great for:
 - Morning tan appointments
 - A last minute night out – get a spray tan in the morning, rinse and go out later than night
 - Squeezing a spray tan into a jam packed day!
 - When the weather isn't spray tan friendly – rain or humidity in the forecast
- There's only one spray solution – you control the depth of color by your rinse time

RINSE TIMES

LIGHT – rinse at 2 hours

MEDIUM – rinse at 3 hours

MEDIUM/DARK – rinse at 4 hours

DARK – rinse at 5 hours

RAPID solutions left on longer than 5 hours may result in an undesirable color

GET READY TO GLOW!

Undress to your comfort level and place clothes and personal items in the client bin

Remove any jewelry and place in dish

Clip or tie hair up off your neckline and tuck inside a hairnet

Apply lip balm to protect lips

If needed, use wipes to remove any residual products from your skin (makeup, deodorant, etc.)

Feel free to wrap up in a robe while you wait for your session to begin
