What to expect from your portrait experience

Your portrait experience has three separate sessions: Consultation, Photo Shoot and Portrait Reveal.

Consultation - We begin with an in person (preferably), phone or Skype consultation to get acquainted and learn more about you and the type of photographs you want and how best to prepare for them. We will discuss who you want to be photographed with, or if this is a personal session just for you. Family and/or friends are welcome to be included in your session if you so choose.

Photo Shoot - Next is your photo shoot which includes an optional hair/make-up artist, refreshments, session styling based on what we discuss in your consultation, and posing guidance to flatter and bring out your most beautiful/handsome and confident self.

Portrait Reveal - After your shoot, you will come back for an in person reveal session to view your beautiful portraits ready to go home with you. What you take home is entirely up to you.

I want you to feel comfortable in front of the camera and bring out your most confident and beautiful self. Yes guys, you can be beautiful too.

I love seeing people view their photographs and smile.

That for me is what it's all about.
