FUSE LOCKOUT

ROUND / BOTTLE FUSE HOLDER LOCKOUT

ES-**RFHLC-1**

ES-**RFHLC-2**

- The Round/Bottle Fuse Holder Lockouts are specifically designed to prevent unauthorized or accidental re-activation of power in fuse bases.
- They are placed into compatible fuse bases using a specially designed Operating Tool (Included).
- These Non Conductive, Chemical resistant lockout device covers two common threads of DIAZED / NEOZED fuses:
  Suitable for :
  - ES-RFHLC-1 - E14 or E18 (NEOZED D01+D02)
  - ES-RFHLC-2 - E27 or E33 (DIAZED DII+DIII)
- For performing lockout, these red and yellow devices have a hole on top that allows for positioning a padlock with up to 6.5mm shackle diameter to secure the lockout.
- Includes a special black key provided at no extra charge, facilitating the easy application and removal of the lockout device.
- To prevent loss or misplaced keys, it is advised to store the keys with the padlock shackle (Check reference image).
- Optional cable padlocks are available for securing multiple fuses simultaneously.
- The device features a prominent "Danger - Do not operate" warning label to alert personnel and enhance visual compliance.

MODEL	PRODUCT DESCRIPTION		
ES-**RFHLC-2**	Round Fuse Holder Lockout Combo - 2		
Diazed Type	**Dim.**	**Amperage (A)**	**Voltage (V)**
DII, KII	E27	2, 4, 6, 10, 16, 20, 25, 30, 35	500 V
DIII, KIII	E33	35, 40, 50, 63	500 V

Steps for Application

1 Remove Fuse Insert

Begin by unscrewing the existing cap and removing the fuse insert (bottle fuse).

2 Insert the Lockout Device

Use the special key provided to insert and securely screw the lockout device into the socket.

3 Remove the Key:

Once the device is firmly in place, remove the special key to prevent unauthorized access.

4 Secure the Device:

Secure the device by placing a padlock through the designated hole or use a cable lockout for locking out multiple devices.

Store Easy-Key

☆ Storage Tip for the Key:

Attach the special key to the padlock's shackle through the key's hole for convenient storage and quick access when needed.
