Audience: Ages 6 to 12 | K – Grade 7 | [children/parents](#) | [local NY](#) | [visitors](#) |

[worldwide friends](#) of Central Park and urban parks | [holiday purchasing](#) |

Dedication: For all those who delight in urban public parks

“The Central Park Lost Mitten Party is a great way for children and adults to share an important lesson in life, that all is not lost if we lose something. The story is bright and memorable, a charming way to think about transforming loss, in beautifully written rhyme. Grownups and children alike will enjoy the beautiful illustrations, and the section at the end of the story, with questions, notes, wonderful details and teachings about the Park, all highlighting the importance of urban public parks. It is a beautiful book.”
