THE TRADITIONAL
SWEDISH OUTDOOR RUG

TRADITIONAL SWEDISH OUTDOOR RUG

Pappelina weaves some 100 000 rugs each year, has some forty employees in Dalarna and markets to 26 countries.

Pappelina still weaves its rugs in the Dalarna mill. Production costs are higher compared to many other countries, yet the goal has always been to create a brand name that stands for quality and pride. This is best achieved by weaving the rugs in Sweden.

The rugs BOB and VERA remain bestsellers and are often termed classics within Scandinavian design. Lina continues to develop new patterns and new techniques. The product range may be increasing, but the essence of Pappelina remains the same: simple, stylish, functional.

Made in Dalarna, Sweden. Woven on a traditional loom using wooden shuttles. Very practical and easy-to-care-for rug in Swedish manufactured PVC. Welded ribbon for strength and durability, with embossed Pappelina logo, at both edges. Measurements may vary $\pm 4\%$ as a result of the various craft processes our rugs are undergoing during manufacturing.

MATERIAL: Phthalate-free PVC ribbon, polyester warp
