

My name is Cami Ciotta and I am the Co-Founder and COO for Go Indie TV. Go Indie TV is an indie cyber channel modeled after mainstream and cable network programming structure for both U.S. and International. Our Executive board has a combined 20 years of producing programming in over 152 markets worldwide. We are presently accepting submissions of professionally produced videos to be placed on one of our channels such as: Action, Animation, Comedy, Cooking, Documentary, Drama, Fashion, Health & Fitness, Horror, International, Music, News, Sci-Fi, and Sports. The shows that are selected will be part of a unique programming platform. In addition, Go Indie TV will have a variety of original programming.

I believe you fit the criteria and I would like to see your work featured on Go Indie TV and to be a part of our initial launch!

Here are some key benefits of being a part of the Go Indie TV family:

- We choose/approve our material and we want only high quality, creative programming for our guest.
- Our site will be like no other with a very creative and entertaining approach
- Our competitors allow uploads of any programming they can obtain to grab advertising monies
- **Go Indie TV** wants to provide the opportunity for our guest (the viewer) to have minimal distraction
- Something like what we are implementing on our network gave birth to HBO.
- **Your video will not get lost in the shuffle, competing with thousands of other videos on one site!**

- Our programming is on a 12-month rotation
- **IT IS THE RESPONSIBILITY OF THE FILMMAKER TO PROMOTE HIS/HER OWN WORK! TO BE SUCCESSFUL YOU NEED TO BE PROMOTING YOUR OWN TALENT 24/7- MANY ARTIST FAIL IN THIS AREA.**

**What does the ARTIST get from being on Go Indie TV?**

- The potential to be discovered by serious distributors (we will have investors, producers, talent agencies, distribution companies, and casting directors logging in privately to review the work on Go Indie TV) The CEO of **Go Indie TV** is Award Winning Producer Gregg Cannizzaro. Keep in mind, your project has more of an opportunity to be reviewed when there are fans backing your project!

2020

Our M & A advisor recommended we add a GoIndieTV YouTube Channel. YouTube is expanding their distribution model, and this is a good time to be a part of their brand. This next move will assist us in the partnership with a digital distribution company that sells to broadcasters.

Go Indie TV will need to know with certainty that the distribution rights we are obtaining are free and clear of any liens encumbrances, potential claims, lawsuits, or competing claims which can interfere with us making a deal for your project to sell with broadcasters. You will be required to sign a clear and free chain of title agreement.

Go Indie TV (GITV) in exchange of airing your content across their platform will bring you value through the Go Indie TV brand giving you # of views, and additional places for

you to obtain a fan base. A lack of distribution deals and/or limited fan following, will make it difficult for you to obtain funding. We are an option to showcase your work after you made your festival run with it. Please remember airing your content only upon your platforms are not enticing to investors, broadcasters etc.

2021

Go Indie TV is in the market to become content providers both in the states and internationally, providing short form content for Airlines/Airports, Bus, Train, and Gas Stations. We are also working on partnering with a network that will be dedicated to airing short form content on cable. We are currently seeking content to fit the criteria needed.
