

PRODUCT INFORMATION

E & E Premixed / Ready to Use Windshield Washer Fluid

— Gets windshields squeaky clean

Description

E & E Premixed / Ready to Use Washer Fluid rids windshields of insects, dirt and road grime. The non-streaking formula leaves windshields invisibly clean. Superior grease and soil penetration readily removes pollutants. Emulsifiers and surfactants combine with powerful detergent action to clean under the most demanding conditions.

Safe

E & E Premixed / Ready to Use Washer Fluid is safe on all surfaces common to vehicles, such as enameled or lacquered surfaces, exposed aluminum alloys, glass, Lexan and plexiglass. Detergents with emulsifiers and surfactants gently combine for safe yet thorough cleaning action.

Precautions

E & E Premixed / Ready to Use Washer Fluid will freeze at temperatures below 32 degrees Fahrenheit (0 degrees Celsius).

Do not use it in freezing temperatures!

Features

- Powerful Detergent Action
- Non-streaking formula
- Does not attack rubber and other windshield sealing components
- Will not harm glass, paint, plastic or metal

Applications

Use E & E Premixed / Ready to Use Washer Fluid in windshield washer reservoirs.

Directions

The non-streaking formula leaves windshields invisibly clean. Superior grease and soil penetration readily removes pollutants. Emulsifiers and surfactants combine with powerful detergent action to clean under the most demanding conditions.

Package: 1 gallon / 128 ounces pail
