PATENTED TECHNOLOGY

US Patent: 10,716,953 B1

According to at least one embodiment of the invention, which may be worn anywhere on the human body as shown in FIG. 1, an apparatus 100 (as shown in FIGS. 2B and 3B) that causes a beneficial effect at least by providing phototherapy to a human body and for example in some embodiments as a result of elevating copper peptide, including activation of stem cells, improvements in energy, elevation of antioxidants, reduction in inflammation, management of pain, improvements in stamina, elevation of collagen production, improved wound healing.

“...embodiments as a result of elevating copper peptide, including activation of stem cells, improvements in energy, elevation of antioxidants, reduction in inflammation, management of pain, improvements in stamina, elevation of collagen production, improved wound healing...”

Stem Cells: The New England Journal of Medicine

States that the # 1 indicator of wellness is directly correlated to the number of adult stem cells in the blood stream.

Stem cells are cells with potential to develop into any kind of cell needed.
They have the incredible ability to heal and repair any organ or tissue.

While our need for adult stem cells increases dramatically as we age, fewer and fewer of them are released into our bloodstream.

A teenager has approximately 1,000,000,000 circulating/activated adult stem cells.

By age 30 this number has dropped to 400 million (a 60% reduction)

By age 50 this number has dropped to 250 million (a 75% reduction)

By age 60 this number has dropped to 100 million (a 90% reduction)

By age 80 this number has dropped to 50 million (a 95% reduction)

WHY X39 STEM CELL ACTIVATION PATCH

- The Fewer Stem Cells You Have....
the Faster You Age and the Slower You Heal.
- 100's of millions of people are
experiencing symptoms of aging
- At age 30 only ½ your stem cells are active.
- At age 60 you lose almost all stem cell activity.

HOW X39 WORKS
