

Barking Mad Dog Grooming and Pet Services

Parking Policy

When booking an appointment with us, you will be instructed to park in particular areas outside the property. There are two available parking spaces for customers.

- o One is the area outside the house.
- o One is our part of the grey drive, directly outside the salon door.

Under no circumstances should clients park anywhere else, other than the two parking spots instructed.

There is also a green cone indicating the space clients should park to make this clear.

When parking in front of the drive, clients must ensure their car does not block our neighbours' drive as they should have access to this at all times. Lining up the middle of the car with the green cone will ensure the drive is not blocked.

We stagger appointments to prevent clients from turning up at the same time however if this does happen, customers should wait in their car, in an appropriate place (not outside anyone's house or blocking the drives of any other residential properties) and then pull into one of the allocated spots when they become available.
