## Your Volunteer Time Has Value:

Volunteer time in California is worth over \$25 per hour.

The American Legion is a federally chartered organization ( 501(c)19 ) in part because it fulfills needs and offers volunteer services that might not otherwise be provided. Members of The American Legion devote millions of volunteer hours, and raise millions of dollars that help veterans, military families and communities, every year.

Your volunteer service hours spent helping our Veterans, Active Military personnel and our local community is added to a report called The **Consolidated Post Report** (CPR) that is submitted by our post to the National Commander of the American Legion. A recent change to the Department of California By-Laws has made this annual report mandatory.

Once submitted, Post 66's CPR report is then combined with that of other Post's across the Nation. The data collected is then used when Legion leaders talk with those who influence funding and services for veterans.

**"Each Post has a story to tell, and when we speak collectively our strength is magnified."**

Annually, thousands of volunteers generate millions of volunteer service hours in support of veteran services and communities across the nation.

**Thank you for your service!**
