Updated February 2026

I am an Associate Professor at Georgetown McCourt School of Public Policy and an Associate Professor of Public Policy at University College London (UCL) in the School of Public Policy/Department of Political Science. My research focuses on the relationship between management practice and organizational structure in delivering welfare-improving services, with a particular focus on the links between citizen voice, bureaucratic motivation, agency autonomy, & performance.

## PROFESSIONAL WORK EXPERIENCE (SELECTED POSITIONS)

---

### ***Aid Management Advisor to the Minister of Finance***

**Monrovia, Liberia**

August 2008 – August 2009

In this position as part of a government-executed, World Bank-funded Economic Governance and Institutional Reform Project (EGIRP), I worked to build a unit in the Ministry of Finance (MoF) capable of serving as the focal unit at MoF for relationships with international partners and to track donor disbursements to strengthen the national budget. I also participated in and advised on Liberia’s interactions with international partners and public financial management (PFM) reform, and led the technical work on Liberia’s Budget Support Working Group (BSWG), a multi-stakeholder forum for discussing PFM progress and challenges, as well as serving as technical focal point for partner budget support operations (including those of the EC and the ADB). I:

- Established a unit in the Ministry of Finance capable of performing aid management tasks;
- Led the process of developing Liberia's first-ever comprehensive report on aid flows as an annex to the national budget;
- Contributed to the process of developing intergovernmental aid architecture;
- Served as Ministry of Finance's focal point on negotiations with most international partners and the vetting of all aid agreements; worked to establish new business processes in these regards inside MoF;
- Led the updating and modification of the PFM Action Plan established by Government and discussed with stakeholders at the June 2008 Berlin Liberia Poverty Reduction Forum;
- Coordinated technical work on behalf of GoL around the finalization of Liberia's 2009 PEMFAR;
- Worked to increase budget support to Liberia, including playing key roles in new funds of 20+ million USD from the African Development Bank and 45+ million USD (over 2 years) from the EU (Liberia had previously received less than 15 million USD total in budget support since the end of the war);
- Coordinated MoF's engagement with international partner missions (scoping, assessment, evaluation, etc.)

***Special Assistant to the Minister of Finance (Scott Fellow)***

June 2007- July 2008

**Monrovia, Liberia**

This [fellowship program](#), funded by the Scott Family Foundation via the Center for Global Development, allowed me to work closely with the Minister of Finance, Antoinette M. Sayeh, during a critical period in Liberia's post-conflict development. My role was essentially to assist the minister in implementing her agenda in the ways in which she best saw fit. I:

- Coordinated the technical work around the development of Liberia's first full Poverty Reduction Strategy (PRS) and drafted sections of the document
- Worked closely with others in coordinating the clearance of Liberia's arrears to the IMF, WB, and ADB, assisting in Liberia's Paris Club Negotiations, and furthering negotiations with Liberia's commercial and other multilateral creditors
- Assisted in the formulation and implementation of PFM reform strategies, including leading the technical work around the creation of Liberia's first PFM action plan, which involved PFM actors across government;
- Served as the principal point of contact within the Ministry of Finance for the IMF, WB, and some other bilateral and multilateral donors, and participated in regular meetings (including the 2008 Spring Meetings of the IMF/WB) and negotiations with partners, including around the IMF's Poverty Reduction and Growth Facility (PRGF), the World Bank's response to the 2008 Global Food Crisis, the African Development Bank's Labor-Based Public Works project, and the HIPC Decision Point document (including coordinating the finalization of the HIPC Completion Point Triggers by the Government and negotiation of same with the IMF and WB)
- In collaboration with the Liberia Reconstruction and Development Committee (LRDC) and the German Government coordinated the preparatory work for the Liberia Poverty Reduction Forum (LPRF) held in Berlin, Germany, in late June 2008
- Supported the Economic Revitalization Pillar of the LRDC, chaired by the Minister of Finance, which coordinates various government agencies and partners' work to revitalize Liberia's economy
- Supported Liberia's launch of the Extractive Industries Transparency Initiative (EITI) and the interim secretariat until permanent staff were recruited
- Drafted speeches and presentations made by the Minister of Finance and President Ellen Johnson Sirleaf
- Advised the minister on a variety of topics
- Joined the minister in meetings with a variety of government and non-government stakeholders
- Liased with a variety of government and non-government stakeholders outside the Ministry of Finance to assist in implementing reforms and in the normal functioning of the ministry

***Founder & Director, Timorese Young Entrepreneurship Initiative (TYEI)***

November 2004-February 2006

**Dili, East Timor**

TYEI worked to empower young Timorese by providing the concrete models, conceptual foundation, and practical skills necessary to improve agricultural practices and generate income through innovation and entrepreneurialism. TYEI is based on the belief that young, unemployed Timorese need to break the cycle of dependency, stop waiting for outside forces to make their lives better, and begin to take action to improve their condition via their own intelligence, resources, and hard work. TYEI assisted nearly a thousand young people in developing and implementing better (higher yielding, more efficient) agricultural practices and appropriate technology, beginning this NGO based on my own ideas for better grassroots rural youth development during my time there, and continued to run as a fully Timorese organization following my departure.

***Program Officer, Ashoka: Innovators for the Public (Thailand)***

July 2003-June 2004 (Program Officer); July 2004-September 2004 (Consultant)

**Bangkok, Thailand**

Ashoka is a citizen sector organization identifying and supporting social entrepreneurs in nearly fifty countries worldwide. For over twenty years Ashoka has provided the financial and non-financial support necessary to transform high-impact ideas into reality, supporting over 1600 Ashoka fellows in their missions for systemic social change. I evaluated candidates for support and coordinated the selection process for new Ashoka fellows in addition to providing current Ashoka fellows with assistance in a wide variety of areas.
