PROFESSIONAL WORK EXPERIENCE (SELECTED POSITIONS)

Risks and Benefits of Use of Somalia Country Systems, World Bank May 2017-November 2017

Washington, DC/Kenya/Somalia

iviay 2017-November 2017

I co-authored a (forthcoming) study on the risks and benefits of the use of country systems, arguing that donors' statebuilding objectives in Somalia augur for increased use of country systems. It suggested bureaucratic changes in approval processes and how they might benefit outcomes. This World Bank-UN joint trust fund consultancy was in support of Somalia's Use of Country Systems working group, a joint donor-Government of Somalia mechanism for exploring the use of Somalia's treasury, budgeting, and expenditure systems by donors.

Future of Aid Agencies, Overseas Development Institute April 2015, 2016

London, UK

In 2015 and 2016 I participated in and helped deliver analytic content for ODI's convening of donor agencies from across OECD-DAC and beyond (Qatar, China, etc.).

Facilitator/Presenter, Collaborative Africa Budget Reform Initiative (CABRI)
April 2014

Johannesburg, South Africa

CABRI is a professional network of senior budget officials in African Ministries of Finance and Planning. I was one of the facilitators and training deliverers for CABRI's 2nd Agricultural Dialogue, focused on tools to evaluate spending impact in the agricultural sector. This included evaluation techniques and dialogue around systematizing evaluation practices, as well as the challenges and opportunities emerging as donors become increasingly interested in project evaluation. Participants included senior policymakers (Deputy Ministers, Directors, etc.) from 14 sub-Saharan African countries.

Design Team Member, South Sudan Partnership Fund

June 2013-February 2014

Juba, South Sudan

In this (part time, based remotely but with regular travel to Juba) role I assisted the Government of South Sudan and development partners in the design of a new multi-donor pooled fund, which had innovative features designed to balance the need to ensure monies were spent as intended with putting government in the driver's seat regarding the uses of funds, as well as using government systems with the goal of strengthening same. The unfortunate events in South Sudan beginning December 2013 prevented this fund, which was expected to deliver approximately 100 million USD per year, from coming to fruition.

Support to Liberia's Aid Management Unit, Overseas Development Institute (ODI)

Monrovia, Liberia

March 2011-June 2012 (both remote and in-country)

- Assisted in the finalization of Liberia's Aid Management Policy on contract from ODI's Budget Support Initiative (BSI)
- Supported reorganization of MoF's Aid Management Unit to implement the policy's mandate
- > Engaged in direct capacity development as well as training and staffing plans
- Worked to encourage budget support and commence work on the division of labor agenda

Aid Management Advisor to the Minister of Finance

Monrovia, Liberia

August 2008 - August 2009

In this position as part of a government-executed, World Bank-funded Economic Governance and Institutional Reform Project (EGIRP), I worked to build a unit in the Ministry of Finance (MoF) capable of serving as the focal unit at MoF for relationships with international partners and to track donor disbursements to strengthen the national budget. I also participated in and advised on Liberia's interactions with international partners and public financial management (PFM) reform, and led the technical work on Liberia's Budget Support Working Group (BSWG), a multi-stakeholder forum for discussing PFM progress and challenges, as well as serving as technical focal point for partner budget support operations (including those of the EC and the ADB). I:

- Established a unit in the Ministry of Finance capable of performing aid management tasks;
- Led the process of developing Liberia's first-ever comprehensive report on aid flows as an annex to the national budget;
- Contributed to the process of developing intergovernmental aid architecture;
- Served as Ministry of Finance's focal point on negotiations with most international partners and the vetting of all aid agreements; worked to establish new business processes in these regards inside MoF;
- Led the updating and modification of the PFM Action Plan established by Government and discussed with stakeholders at the June 2008 Berlin Liberia Poverty Reduction Forum;
- Coordinated technical work on behalf of GoL around the finalization of Liberia's 2009 PEMFAR;
- Worked to increase budget support to Liberia, including playing key roles in new funds of 20+ million USD from the African Development Bank and 45+ million USD (over 2 years) from the EU (Liberia had previously received less than 15 million USD total in budget support since the end of the war);
- Coordinated MoF's engagement with international partner missions (scoping, assessment, evaluation, etc.)

Special Assistant to the Minister of Finance (Scott Fellow)

Monrovia, Liberia

June 2007- July 2008

This <u>fellowship program</u>, funded by the Scott Family Foundation via the Center for Global Development, allowed me to work closely with the Minister of Finance, Antoinette M. Sayeh, during a critical period in Liberia's post-conflict

development. My role was essentially to assist the minister in implementing her agenda in the ways in which she best saw fit. I:

- Coordinated the technical work around the development of Liberia's first full Poverty Reduction Strategy (PRS) and drafted sections of the document
- Worked closely with others in coordinating the clearance of Liberia's arrears to the IMF, WB, and ADB, assisting in Liberia's Paris Club Negotiations, and furthering negotiations with Liberia's commercial and other multilateral creditors
- Assisted in the formulation and implementation of PFM reform strategies, including leading the technical work around the creation of Liberia's first PFM action plan, which involved PFM actors across government;
- Served as the principal point of contact within the Ministry of Finance for the IMF, WB, and some other bilateral and multilateral donors, and participated in regular meetings (including the 2008 Spring Meetings of the IMF/WB) and negotiations with partners, including around the IMF's Poverty Reduction and Growth Facility (PRGF), the World Bank's response to the 2008 Global Food Crisis, the African Development Bank's Labor-Based Public Works project, and the HIPC Decision Point document (including coordinating the finalization of the HIPC Completion Point Triggers by the Government and negotiation of same with the IMF and WB)
- ➤ In collaboration with the Liberia Reconstruction and Development Committee (LRDC) and the German Government coordinated the preparatory work for the Liberia Poverty Reduction Forum (LPRF) held in Berlin, Germany, in late June 2008
- Supported the Economic Revitalization Pillar of the LRDC, chaired by the Minister of Finance, which coordinates various government agencies and partners' work to revitalize Liberia's economy
- Supported Liberia's launch of the Extractive Industries Transparency Initiative (EITI) and the interim secretariat until permanent staff were recruited
- > Drafted speeches and presentations made by the Minister of Finance and President Ellen Johnson Sirleaf
- Advised the minister on a variety of topics
- > Joined the minister in meetings with a variety of government and non-government stakeholders
- Liased with a variety of government and non-government stakeholders outside the Ministry of Finance to assist in implementing reforms and in the normal functioning of the ministry

Founder & Director, Timorese Young Entrepreneurship Initiative (TYEI)

Dili, East Timor

November 2004-February 2006

TYEI worked to empower young Timorese by providing the concrete models, conceptual foundation, and practical skills necessary to improve agricultural practices and generate income through innovation and entrepreneurialism. TYEI is based on the belief that young, unemployed Timorese need to break the cycle of dependency, stop waiting for outside forces to make their lives better, and begin to take action to improve their condition via their own intelligence, resources, and hard work. TYEI assisted nearly a thousand young people in developing and implementing better (higher yielding, more efficient) agricultural practices and appropriate technology, beginning this NGO based on my own ideas for better grassroots rural youth development during my time there, and continued to run as a fully Timorese organization following my departure.

Program Officer, Ashoka: Innovators for the Public (Thailand)

Bangkok, Thailand

July 2003-June 2004 (Program Officer); July 2004-September 2004 (Consultant)

Ashoka is a citizen sector organization identifying and supporting social entrepreneurs in nearly fifty countries worldwide. For over twenty years Ashoka has provided the financial and non-financial support necessary to transform high-impact ideas into reality, supporting over 1600 Ashoka fellows in their missions for systemic social change. I evaluated candidates for support and coordinated the selection process for new Ashoka fellows in addition to providing current Ashoka fellows with assistance in a wide variety of areas.
