 - Skaters must register for the synchronized skating class through Greeley Ice Haus for the duration of the synchro season. This will be the designated practice time.
 - **Must** be in private lessons and continue throughout the season - the synchro class is to perfect the synchro elements, not teach progressive skating skills
 - **Must** be willing to attend each competition/performance - larger competitions start during the week and there could be a chance we would be scheduled during a weekday
 - Purchase at least one costume for performances.

Attendance Policy and Communication

Attendance is CRUCIAL for a successful team! Skaters cannot gracefully change their routine on the fly because someone does not show up to a competition, nor does it facilitate a productive practice when the coach has to re-choreograph routines every week because people are absent.

- Each skater is permitted 2 "excused absences" to allow for illness & travel flexibility. Excused absences are defined as having been communicated to the Coach or MVSC Rep **PRIOR TO** the start of practice.
- Unexcused absences **WILL NOT** be tolerated. Excessive absences (even if excused) will result in a review from the committee and will result in penalties **UP TO** being removed from the team.
- Should a skater miss practice and miss choreography changes, it will be the responsibility of the skater to work with their teammates to learn the routine. Coaches will NOT repeatedly re-teach the same choreography.

Outside of illness and emergencies, absences MUST be communicated no less than 24 hours before:
