

The United Nations has called for the protection and restoration of ecosystems worldwide for the benefit of humanity and nature. The years 2021-2030 have been declared as the "United Nations Decade on Ecosystem Restoration". The next decade is crucial in addressing climate change and biodiversity loss. The need to restore damaged ecosystems and rebuild the connection between humans and nature is more urgent than ever.

世界那么大 美丽我的家  
SUCH A BIG WORLD I HAVE A BEAUTIFUL HOME  
儿童画国际巡展  
INTERNATIONAL CHILDREN'S PAINTING EXHIBITION BY CHILDREN'S PAINTING  
2024 "走进生态"系列公益展览

Mountains have their own shapes

Water has its own color

Life dwells on the earth

Every call has its own temperature

Approach the primitive ecology

Explore the laws of nature

From a child's perspective

Paint the dream of protecting the ecology

Co-hosted by the FAO Representative Office in China
