

CLIMATROL PROTECTION SYSTEM

This design allows you to have the best insect, solar, *and* foul weather defense! The screen mesh allows you to enjoy the cool breeze; but when foul weather approaches, you can simply roll down the vinyl to be protected from the elements!

Optional Features Include:

- Obstacle Detection
- Manual Override
- Home Automation

INSECT & WEATHER CONTROL
IN ONE
**SCREEN & VINYL
SYSTEM**

MANUFACTURED BY

Powered By: Alpha Motors

The fully transparent marine-grade vinyl panel provides clear visibility and offers protection from inclement weather, while the mesh selection offers insect, sun, or privacy control options.

The system is housed in a powder coated aluminum housing and is suitable for many outdoor applications. It is ideal for restaurants and outdoor gathering areas such as decks, patios and gazebos.

TYPICAL RESIDENTIAL APPLICATIONS INCLUDE:

- **Outdoor kitchens**
- **Porches**
- **Lanais**
- **Entry ways**

STANDARD COMMERCIAL APPLICATIONS INCLUDE:

- **Open-air dining areas to offer protection from inclement weather and/or deter insects**
- **Entertainment venues**

The screen and vinyl are retained in our new dual-track system which can be built into your structure's architecture, or retrofitted for overhead mounting. CLIMATROL PROTECTION SYSTEMS are powered by high-quality motors and electronics, and come with our outstanding 7-year warranty!
