

*Hurry! The last stage is located at the student mailboxes!*

*Each spoke relates to its opposite number.*

*Work out the central number and the calculation that links the three numbers in each row.*

*When solved, the central numbers will be the combination that will unlock the mailbox.*

*Did you think it was going to be that easy?*

*Solving the combination was just the beginning.*

*Now you must figure out which mailbox to open!*

*A Bentley treasure chest will be awarded to the first three teams that unlocked the mailbox and found the final treasure!*

**TO UNLOCK THE MAILBOX:**

1. To clear the lock, turn the knob to the left (counter-clockwise) three full turns.
2. Turn the knob (counter-clockwise) left to the first combination number
3. Then turn the knob (clockwise) right in one full cycle past the second number once and stop on the second turn.
4. Last, turn the knob (counter-clockwise) left to the third combination number
5. You will hear a click in the knob. Twist the knob right to open the mailbox.
6. Remember to close mailbox and turn knob to lock

**HAPPY HUNTING**
