Laddie, the Leprechaun's 5 Secrets to Achieving Your Goals and Manifesting Your Dreams

SECRET #1: Find something you love to do, and do it!

The human world, in its push to make amazing things happen, wants to push each person into a cog position that is needed so that a grander vision can be achieved by the society, the group as a whole. This doesn't necessarily suit an individual's talents or inclinations.

From the very start, you need to explore all kinds of avenues for self-expression, and find out which things you enjoy doing and can do well.

Laddie says, "I am a shoemaker. I love making shoes and I do it very well. I love paying attention to every detail so that the finished shoes are comfortable and attractive to the person who will be wearing them."

SECRET #2: Use the rainbow to transport you to your dreams!

You may have seen rainbows after a rainstorm, and they appear as though they are far away. That's because they are an illusion created by the sunlight passing through water droplets in the air.

You may find it surprising that you, too, are a “rainbow”. Your human body system is made of light and water, similar to the rainbows you have seen. You can use your personal “rainbow” to help you achieve your goals and manifest your dreams.

You can focus your attention on BEING the most beautiful rainbow you can be! By focusing on the rainbow you are, you actually transport yourself outside of Time, to where your dreams have been achieved. You merge with your dream Self and FEEL like you are living your dream life NOW. This is very important! When you do this, you actually begin pulling your dream from future time toward the time where you are now. It's a very magical thing!

Laddie says, “We leprechauns are very good at this. That’s how our lives are so happy and carefree. We enjoy what we have. We take pleasure in good company. We feast and dance. And when we work, we are doing what we love. Remember that you ARE a rainbow, and merge with your dreams NOW.”

SECRET #3: It's not about what ANYBODY ELSE is doing!

If you look around you, and start comparing where you are to where other people are, you will be on the wrong track! Don't do it!

The outside world is a kind of illusion. It can be a distraction that keeps you from focusing on achieving your goals and manifesting your dreams.

Laddie says, "Leprechauns can focus their attention. They can stay in the NOW. When they have something on their list of things to do, they simply do that thing. They don't whine and say they need a snack first, or complain that somebody else isn't helping them. They look at what the task requires. They gather their energy and their tools and they go to work, getting that task done."

"Yes, other people can be helpful when you have questions. They can help you get your tools, or explain how they would do that task. And then it's up to YOU to git'er done!"

SECRET #4: You can CHOOSE to be happy!

Happiness is an emotion. An emotion is a way you feel inside. Some people think that how they feel INSIDE is determined by what is going on OUTSIDE of them. You don't have to let your emotions be determined by what happens to you from outside of you. You can CHOOSE to feel good inside just because you want to!

Laddie says, "It's like living with the sun inside of you. You can shine wherever you are, even when others are walking through clouds and rain. Leprechauns are very social beings. They like getting together and having a good time. But they know that it isn't other people who make them happy. They have their happiness inside their self and they bring their good feelings to share with others. They can listen without being pulled out of their happiness. They can help their neighbors solve a sticky problem and still feel good inside. Some humans seem to have dark clouds stuck to them. They don't understand that they can make a different choice and the dark clouds will go away. They can choose to let their inner sun shine!"

SECRET #5: YOU decide what your “pot of gold” is!

Some people’s goals and dreams are to impress others so that others will finally like them or be envious of them. Humans with dreams like this end up with an empty heart. We don’t recommend this route!

Choose a dream which is the outflow of the love that is in your heart, an overflow of what makes you happy.

Remember that what brings you joy will not necessarily be the same as what brings joy to another. The fulfillment of YOUR dreams is your “pot of gold”.

Money is simply one means to achieving an end. There are many OTHER ways in which dreams can be reached.

Laddie says, “The glint of light reflected off a coin is a metaphor for the light which shines from you when you are aligned with the feeling of your dreams, and striving diligently and happily as you do what you love.”
