(We are not liable for lost or damaged items.)

☐ Bath (day of pickup)

☐ Medicated Bath

☐ Express Anal Glands

☐ Nail trim

☐ Vaccinations

Special Instructions/Other Treatments while boarding (use back if needed):

Boarding your pet can sometimes be a stressful situation. As a result of this stress, your pet may develop a gastrointestinal upset which can cause diarrhea and/or vomiting. If this condition arises, HHVC has my permission to treat my pet as deemed necessary by the doctors (average cost for treatment \$35-\$50). All cats are required to be current on FVRCP and Rabies, and dogs current on RV, DHPP, Bordetella, and Lepto vaccinations or titers. All pets should also be up to date on fecal exams. If you choose not to vaccinate your pet you must sign a form releasing HHVC of liability. For non-emergency problems we will make every effort to contact you before treatment of your pet. For emergency situations you give HHVC the authorization to treat your pet as deemed necessary by the doctors before contacting you.
