wall system options.

**BUILD  
YOUR  
BRAND**

“Blown away is an understatement! We don’t look like the average repair shop. We are representing a brand, and our facility speaks to our brand’s reputation for quality.”

## Build-A-Bay™ Builds Your Business

Build-A-Bay™ by Snap-on Tools Company is an innovative custom designed concept for your service department. Customers and technicians alike have been “Blown Away” by the concept. By taking the service area to a new level, Build-A-Bay™ helps build your business. It increases consumer confidence, and builds employee loyalty, and organizational pride and profit. Build-A-Bay™ is a way of making sure every new customer becomes a repeat customer and every technician becomes an ROI.

Build Your Service Bay  
**WITH THE BEST.**

"Build-A-Bay™ is good for both customer satisfaction and technician retention. It's a brand (Snap-on®) our customers recognize as superior, and that our techs are proud to use. "

**BUILD  
CUSTOMER  
LOYALTY**

## "Customers Are Impressed!"

That's why they'll be back. Build-A-Bay™ isn't just a tool box. It's a whole new concept. Customers aren't just customers ... they're guests. Imagine that a floor-to-ceiling glass panel is all that separates your guest area from the Build-A-Bay™ service area so guests can look in and watch their vehicles being worked on in clean, professional work stations. They love the idea. Build-A-Bay™ builds immediate confidence with every new guest. And with confidence comes loyalty ... the stuff of which success is built on.

# INTEGRATED STORAGE SOLUTIONS

## BUILD EMPLOYEE RETENTION

"I plan on being here a long time. Build-A-Bay™ makes my work day easier. Tools remain organized and secure, which does a lot for my productivity."

## Increase: Productivity - Customer Satisfaction - ROI

Training new technicians takes time and costs money. Having them leave after three years to go somewhere else for a dollar more is a waste of your valuable resources. Build-A-Bay™ is a smart investment, not only today...which is measured by increased productivity...but tomorrow. Part of your ROI is measured by technician retention.

Build Your Service Bay  
**WITH THE BEST.**

**Snap-on**

"We were just looking for a more consistent look in our shop. Build-A-Bay™ became a statement of our commitment to the technician, service manager, and customers of how we intend to run our shop."

**BUILD  
EMPLOYEE  
RETENTION**

With the Build-A-Bay™ system in place, new technicians can spend their money on the tools that will help them get the job done right, the first time - building confidence and customer satisfaction. Build-A-Bay™ helps instill the kind of "blown away" pride that makes a new technician feel that he wants his first job to be his last job.

# INTEGRATED STORAGE SOLUTIONS

## Superior Snap-on® Features:

### Heavy-Duty Drawers

Drawer Slides support up to 227 lbs. per set. An additional set of slides can be added to any 4" or deeper drawer (standard on 5" full width drawer).

Drawers feature quick disconnect for easy removal for interchangeability.

Drawer Stiffeners - four per extra wide drawer to withstand a heavier workload.

The Snap-on Exclusive Lock'n Roll® feature helps prevent drawers from drifting open for more safety.

Snap-on drawers have smooth rolled edges and double thickness for a much more rigid and safer drawer.

## Full Width Drawers - Most Efficient Use of Space

The two full width drawers provide convenient storage of 2,150 sq. in. / 8,200 cu. in.

### 5" Full Width Drawer

Perfect For Storing Sockets Upright

### 3" Full Width Drawer

Ideal For Wrench Storage

## First-Class Paint Finishing Process

### Inspect and Sand

Every unit is inspected for defects and any scratches or blemishes are sanded prior to painting.

### Pre-Treatment

Each component is fully submersed when washed, cleaned, rinsed, and pre-coated as part of our process.

### Powder Coat

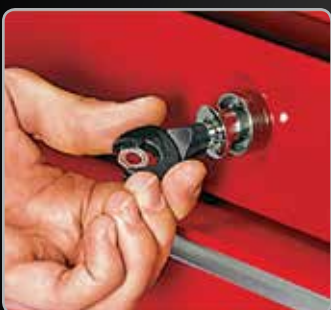

Our powder coat is electrostatically applied using multiple head automated guns.

Snap-on Series tool storage units takes security to the next level. Every unit has it's own lock. Plus, each exposed lock features a high security free-spinning collar to discourage break-ins.

## Keyed Alike Security Helps You Protect Your Investment.

### FEATURING MASTER KEY CONVENIENCE

At Snap-on, we know that tool security is vital, but it must also be convenient. That is why we key each cabinet in the technicians workstation the same, allowing the technician to open every box in their bay with one convenient key. Convenience doesn't stop there - we also supply a master key so the service manager can open the entire shop, with only one key. Security, convenience, and productivity all in one.
