

**DRIVER BIO
DECK**

While Kyle has over 18 years of experience, his passion for the sport was ignited by family friends at the age of seven. Although geographically Kyle was at a disadvantage due to the lack of venues locally, he thrived in the racing community. Kyle has competed in ASA Cars, INEX Legends Cars, NASCAR Late Models, ChampCar Endurance Racing, & ARCA Menards Series Cars over the course of his career. With the support of family & friends, Kyle is striving for great things in his career.

When not competing for wins or championships, Kyle stays busy on track by instructing with various organizations around the country and does private instruction by reservation for track/test days or race event weekends.

Over the next few seasons, Kyle plans to compete in the ARCA Menards, IMSA Michelin Pilot, and NASCAR Craftsman Truck Series. The ultimate goals are to eventually compete in the top division, the NASCAR Cup Series and coveted IMSA Sports Car Classic....the Rolex 24 at Daytona.
