Risk Management Course Series

Presented by the Department of Mining Engineering, University of Pretoria

Join us on this journey to elevate your skills, fortify your organisation, and champion a culture of safety and risk management excellence.

1. C-MiRM (Course for Managers in Risk Management) – Level 4 – Executives

This 5-hour course teaches executives the importance of a risk appetite statement (RAS) and how high-level risk decisions impact lower-level decision-makers' risk tolerance.
Duration: 5 hours

2. C-MiRM (Course for Managers in Risk Management) – Level 3 – Managers

This 5-day course enhances managers' risk management skills, providing tools to create a risk framework aligned with ISO standards like ISO 31000, ISO 14001, and ISO 45001.
Duration: 5 Days

3. C-MiRM (Course for Managers in Risk Management) – Level 2 – Supervisors

This 3-day course teaches supervisors to build and maintain a risk management framework using the operational risk management approach and conduct task-related risk assessments.
Duration: 3 Days

4. C-MiRM (Course for Managers in Risk Management) – Level 1 – Employees

This 1-day course equips employees with the skills to engage in risk management using the operational risk management approach.
Duration: 1 Day

5. C-MiRM (Course for Managers in Risk Management) Fundamentals

This 12-day course helps managers establish a risk management framework aligned with ISO 31000 and other international standards like ISO 31010 and ISO 45001.
Duration: 12 contact days (or spread over 10 months)

6. C-MiRM (Course for Managers in Risk Management) – Advanced

This 16-day course delves deeper into risk management methodologies, focusing on planning, implementing, and validating techniques within ISO 31000 across horizontal and vertical tiers.
Duration: 16 days (or spread over 3 months)

7. Bow Tie Analysis Masterclass

This 3-day course teaches participants to apply Bow Tie Analysis to evaluate risk controls, incidents, and outcomes, with hands-on experience in BowTieXP software.
Duration: 3 Days

8. C-MiRM (Course for Managers in Risk Management) Refresher – Middle Managers

This refresher course helps middle managers refine their skills in applying a risk management framework aligned with ISO 31000:2018, ISO 31010:2019, and ISO 45001:2018.
Duration: 2 Days

Whether you are a manager seeking to enhance your decision-making capabilities, a supervisor aiming to conduct formal risk assessments, or a safety and risk professional looking to delve into specialized techniques, our courses offer a pathway to excellence aligned with international guidelines, standards, and best practices.
