

COVID-19 iCure Chapter Action Plan & Ideas

Your goal is to help a 100 people a month with your iCure chapter.

1. Create an informative video in small groups that share the same medical interests.
 - a. Let's say you have 10 members, the members can divide themselves into groups of 2-3 and research medical topics that interest them and then create an informative youtube video 5-8 minutes long.
 - b. TIP: Videos have a higher chance of reaching more people because a lot of people are on youtube, instagram and other social media platforms.
2. Create posters which can be posted to iCure or if available, hung around campus.
3. Create slides presentation which can be posted to slideshare or icure.health.
4. Create instagram posts which can be uploaded to the official iCure instagram.
5. Write a research article on COVID-19 and its progression
6. Create posters with common disease symptoms.
7. Locate nearby COVID-19 testing exhibits and raise awareness for testing and symptoms.
8. Create posters with helpful tips to avoid diseases.
9. How does cancer kill the human body & cells (informative video or poster).
10. Hosting a school event.
11. Locate doctors and arrange a virtual meeting to interview about the effects of COVID in your area from a doctor's perspective.
12. Locate medical nurses and get a perspective of working heavy hours and patients.
13. COVID vaccine medical researched predictions?
14. Hold informative webinars about specific topics in which students can join, interact and ask questions.
15. Make a video promoting the flu vaccine due to the start of the flu season.
