

Help Save the World with a few free taps on your phone.

Post this note all you can to help inspire media & politics to put “Helpfulness Above All™”

on their screens & in all they say & do, as the world's most self-helpful, economy, peace & prosperity boosting behavior there is.

NOT doing that **has let its opposite, selfishness, in relatively few very toxic profiteering actions, mostly in media, leading politics, like benzene,* poison and confuse the economy and full flow of peace & prosperity to everyone, including them & also “the rich.” This project is to help inspire everyone to stop enabling **that toxic selfishness** by avoiding people **who DON'T** put Helpful Above All™ in all they say & do. Helpfulnessaboveall.org**

***1 drop of benzene poisons 2500 gallons of clean water.**

Selfishness is self-help that does not care if it hurts or bothers others.

Please do not confuse **exploitative, coercive, position-abusing profiteering** with freely-agreed-to mutually helpful profit earning.

And you may **be too “Stockholm Syndrome Gaslit”** by media, politics and even religion and “education,” to overcome **profiteering BRAINWASHING** to grasp what these words **ACTUALLY SAY**. For details see the Free Online Guide™.
