Helpfulness Above All™

* Increase everyone's peace ♥ & prosperity \$
much faster than is now occurring.

- I.e., to help our world make our most mutually rewarding behavior, helpfulness, our top uniting priority, in all we all do, to maximize everyone's peace & prosperity.
NOT making helpfulness our world's top uniting priority
has let its opposite, selfishness, divide & dominate us,
mainly thru **tiny but highly toxic out-of-context political
doubt-seeding messages, & media who profiteer from that.**

*E.g., most vividly, in WWII, the U.S. helped Europe's democracies resist authoritarianism.
That built our industry & economy into the wealthiest, with which we have led the world.
**But now our politics has us largely quitting that role, ceding to AI-ambitious author-
itarian China**, much of whose wealth comes from U.S. markets. I propose a much more
profitable path for China. See [Helpfulnessaboveall.org](https://helpfulnessaboveall.org). GoFundMe >\$10 helps me develop
