Optional Reading

This Project's MOST RELEVANT DETAIL

is that it is based on the one by far most valuable, verifiably evidenced human process everyone continually sees and experiences

FIRST HAND,
which is that

Everyone helps themselves by far the most in life, overall, by simply helping other people the most they feel they can, at work and otherwise, which they do nonstop, at the very least by simply not bothering others. THAT is the core process of all economies, peace, and prosperity.

Turn the page

And again, that most relevant detail's two main definitions:

Helpfulness = Limiting bother and / or increasing enjoyment overall.

When **EVERYTHING** is considered, **MORE THAN 99%** of **all human behavior is intended to be, and *is* ultimately HELPFUL in some way. And that accounts for more than 99% of value-creation in the world.**

Selfishness = Impatient self-help that does not care if it hurts or bothers others.

Selfishness can be called the opposite of helpfulness. When **EVERYTHING** is considered, **LESS THAN 1% of all human behavior is SELFISH in some way. But that accounts for MORE THAN 99% of ALL human bother and suffering. And even "tiny" selfishness** (just as a drop of benzene can poison >2000 gallons of drinking water) **can be massively destructive.**

Turn the page

▼

THE 2ND MOST RELEVANT DETAIL
OF THIS PROJECT
to Keep in Mind about
Helpfulness and Selfishness:

While >99% of people agree on >99% of what is helpful and selfish, ultimately, that is subjective. And <1% of what some people view as helpful, other people view as selfish, and vice versa.

And in <1% of *those* issues, when someone sees that as threatening, and those others will NOT

converse with them mutually helpfully

about those issues, THAT accounts for >99% of conflict and unhappiness in the world, which robs prosperity and enjoyment from *everyone* in the economy.

Turn the page ▼

To help maximize people's willingness to

converse mutually helpfully about everything,

our

Free Online Guide™

below,

describes how to have

The Most Mutually Helpful Conversations Possible™

Turn the page ▼

DIRECTLY RELTED TO THAT,
on the first panel of this section,
we emphasize "FIRST HAND"
because
THE VAST MAJORITY OF SELFISHNESS
in the world stems from people being
coerced, forced, compelled, gaslit,
cajoled, enticed, inspired, seduced,
tempted, compromised, etc.
into accepting things based on

WHAT OTHER PEOPLE TELL THEM

THAT DO NOT ULTIMATELY ALIGN with that FIRST HAND, by far most valuable, verifiably evidenced human process that that they themselves know and everyone continually witnesses and experiences, described on the first panel of this section.

Turn the page
▼

Thus begins the initially subtle, hidden, insidious <u>ABUSE OF TRUST</u> that selfishness is built on.

And that abuse of trust SATURATES that <1% of human behavior that causes and allows >99% of human bother and suffering.

And again, that lack of "alignment" is what has AI experts so scared that "AI will kill us all."

Turn the page

▼

And so

Media,

Politics,

& Religion

are >99% helpful

and <1% selfish.

But again, those tiny selfish parts poison their massive helpful parts, like single drops of benzene that poison over 2000 gallons of clean drinking water each.

And again, for some of the main, of the countless, ways they "go selfish," see our Free Online Guide™ below.

Turn the page

▼

THE 3RD MOST RELEVANT DETAIL

OF THIS PROJECT is that

Vast verifiable evidence shows that people MOSTLY help others for the simple, SHEER ENJOYMENT they get from doing so.

The most prevalent example of that may be parents helping their kids. But this is vivid in the vast majority relationships and professions too.

In business, world-transforming productivity legend W. Edwards Deming observed that the only truly sustainable motivator of people to perform quality work is their "pride in workmanship," i.e., their feeling that they are helping others. That is what people mean by the term "meaningful work."

Turn the page

▼

THE 4TH MOST RELEVANT SET OF DETAILS

OF THIS PROJECT

to Keep in Mind is that

after

that most irrefutable, ubiquitous, vast, verifiable vital foundational

first-hand evidence you and everyone else has:

(That everyone helps themselves by far the most in life, overall, by simply helping other people the most they feel they can, at work and otherwise, which they do nonstop, at the very least by simply not bothering others. THAT is the core process of all economies, peace, and prosperity.),

Turn the page

▼

the 2nd-most irrefutable verifiable

2nd, 3rd, etc. -hand EVIDENCE

supporting this project:

When the world-leading helpfulness-sharing representative democracy that was, and yes still very much is,

The United States of America

marshalled its massive resources to tip the balance to help save the world from the selfish (relentless, murderous, torturous, pillaging, attention-whoring, profiteering, warring aggression of corrupt, self-dealing, racist) **power-hoarding authoritarian rulers, when they cornered the U.S. into fighting them off in WWII.**

Turn the page

▼

And as a consequence of the know-how and industrial capacity the U.S. built up doing that, it became by far the richest, most powerful country on earth,

with under 4.9% of the world's population.

Turn the page

▼

The 3rd-most irrefutable verifiable

2nd, 3rd, etc. -hand evidence

supporting this project is that helpfulness-sharing representative democracies are >70% more profitable than selfish, few-people-ruled authoritarian countries. *

*That 70% is GDP over a 75 year-old's lifetime, main verifiable evidence, The Journal of Political Economy. Representative democracies' many leaders share power, authoritarian few leaders hoard power. Authoritarian-ruled countries: China, Russia, Saudi Arabia, United Arab Emirates, Vietnam, etc. = >70% of the world's population, per IMF, World Bank, VDM Institute.

(But we, in our representative democracies, do have our own selfishness issues that rob prosperity from everyone, including power-hoarding media, politics, religion, and the very rich too. Read on for more about that.

This project's main goal is to help minimize that wherever it is.)

Turn the page ▼

The 4th-most irrefutable verifiable

2nd, 3rd, etc. -hand evidence

supporting this project

helpfulness is accelerating

in the world,

as it has slashed

extreme poverty

by over 77% in just the past 46 years.

SOURCES: The World Bank, United Nations, The Brookings Institution, and Our World in Data.
For these specifics see our Free Online Guide™ below.

Turn the page

THE 5TH MOST RELEVANT SET OF DETAILS

For more about this project beyond this section, + other priceless tools, see our **Free Online Guide**™ below.

For the FASTEST and MOST additional verifiable evidence supporting this project, to START, ask 5 or 6 chatbots. They aren't perfect, and can be quite flawed, but use common sense and take your search from there. We recommend the most popular,

ChatGPT, Gemini, Copilot, Claude, Perplexity, & DeepSeek.

BUT REMEMBER, their internet sources are steeped in "legacy, largely 'gaslit' 'rent-seeking'" Media, Politics, Religion, & AI as their "unwitting" given. Which of course this project seeks to correct.

Turn the page

▼

RELIGION

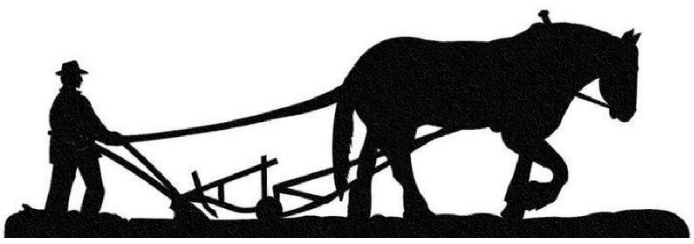

began **tens of thousands of years** ago, and has thus **influenced politics**, **media**, **and now AI far more than anything else.**

TIMELINE OF HUMAN EXISTENCE

RELIGION

POLITICS · MEDIA · AI

And for >99% of human existence, until the past few dozen decades, **THE VAST MAJORITY of PEOPLE PHYSICALLY LABORED**, **HARD, DAILY mostly on FARMS,**

as **RELATIVE SCARCITY RULED.**

And compared to our knowledge-saturated world now, **RELATIVE IGNORANCE RULED**, **ALONGSIDE RELATIVE SCARCITY.**

Turn the page

In that time, religion, and faith in it helped people survive that dominant period of relative scarcity and ignorance.

And now MOST of the world (~52%) can trace their religious belief and faith to Abraham of The Bible,

MOST of whom are **Christians**, approximately 2.35 billion of them.

Then MUSLIMS ~1.95 billion, JEWS ~16.15 million, 4 OTHERS ~23.8 million = 4.34 billion of the world's 8.3 billion people.

Turn the page

▼

So it is CONVENIENT that, CHRISTIANS have the world's by far most widely promoted version THIS PROJECT'S KEY to SOLVING

that world's biggest problem, selfishness, or sin, as they may call it. And that is in THE HUMAN-FOCUSED HALF of WHAT JESUS SAID HIS MESSAGE is ALL ABOUT:

LOVE YOUR NEIGHBOR AS YOURSELF.

- Treating EVERYONE as your neighbor,

Turn the page

▼

- Which the other Abrahamic religions

do too. And ALL of them ALSO convey that as versions of the idea

> TREAT OTHER PEOPLE AS YOU YOURSELF WOULD WANT TO BE TREATED.

And of course
THAT is what it means
to be HELPFUL, NOT SELFISH.

Turn the page ▼

And many people say "It would be great if everyone lived that way."

And again, we already made the point in the Promo Note™ and elsewhere above:

Everyone ALREADY DOES LIVE THAT WAY the most they feel they can.

And essentially,
TO THE MORE YOU SELFISHLY RESIST SEEING THAT, THE MORE YOU ARE THE MAIN THING OBSTRUCTING HELPFULNESS FROM BECOMING THE RULING POWER THROUGHOUT THE WORLD.

Turn the page

And having been born from and in a world dominated by relative scarcity and ignorance, religion has tended to do that.

And so it poisoned politics, and media with that selfish view, plagued it with that all-defining, directing context.

And so ALL 4 of THEM NOW POISON ALL OF US THAT WAY.

Turn the page

▼

I call the following
"Everyone's Lifeline."

It may seem to you that some people, or people in general, are MUCH more selfish than I say here. Or are even MOSTLY or TOTALLY selfish.

That is because **selfishness** is by far the **LOUDEST "squeaky wheel" in life. Even a tiny bit, is like benzene, of which it takes only 1 drop to poison 2000+ gallons of water.** That is why ...

Turn the page

… selfishness needs to be vigorously resisted and restrained as much as humanly possible, to limit the massive damage it causes.

That is what this project is all about.

HOWEVER,

<99% of what people do that others perceive or project is selfish actually has explanations that those others would accept as LOGICAL and REASONABLE, if they just stop to imagine them.

Turn the page

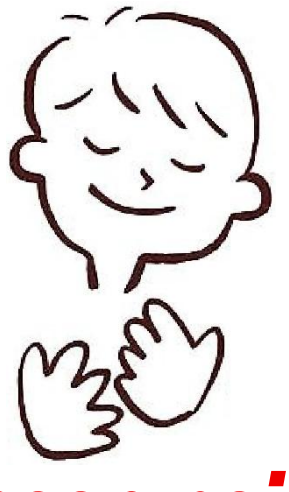

And **THE ONE MAIN REASON** people **act selfishly**, or **appear** **to you to**, is that **ALL of us have grown up and made our way in a world that has NOT promoted its supreme value-creating process, helpfulness, above all else.**

So its **opposite**, **selfishness** (tiny toxic impatient self-help that hurts others), **like drops of benzene, have greatly poisoned** **our world and all of us. And that has poisoned** **many of us MUCH more** **than others of us.**

Turn the page

III

I have found it helps me FEEL GOOD to consciously be ever more immensely grateful

for NOT having been poisoned by having selfishness around me more than I have been throughout my life.

And I feel bad for people who have suffered from others' selfishness immensely more in their lives. - Especially if they feel the need to impoverish themselves and others emotionally by acting selfishly themselves.

Turn the page

▼

And even people who actually act selfishly do so in less than 1% of their behavior overall.

And such people help other people in many ways in over 99% of their behavior, in order to make a living, not bothering people, obeying the vast majority of laws, etc., to stay out of trouble, jail, prison, etc.

Turn the page

And those millions of bits of help that such people DO render (even when it's as tiny as simply not bothering other people) is THEIR LIFELINE to START to infinitely benefit by JUST being their naturally helpful selves ALL THE TIME, to help save themselves and the world from selfishness.

Turn the page

▼

In that same way, as needed, that is **YOUR LIFELINE** to both **such** people and **yourself to start seeing how infinitely priceless being helpful *and not selfish* IS - to infinitely benefit by just being your naturally helpful self with everyone, to help them do the same, to save them, the world, and all of us in it, from selfishness.**

Then the fun of life can REALLY begin.

Turn the page

That is because by "saving the world" we also mean improving "everyone's enjoyment and prosperity infinitely faster than can otherwise occur,"
as we say on the Promo Note™

That includes people who are already very rich and happy.

Turn the page

Again, for much more about this project beyond that section + other priceless tools, see our Free Online Guide™ below, including vast verifiable evidence supporting every-thing I say in this project.

Turn the page

If you have any problem with anything I say in this project, I would very much appreciate you telling me what that is and why. Even if you don't exactly know. Use the chat icon or contact form on this website. Thank you!

Tim Mossman
