

# This project is to help humanity mature from being

me-oriented, toxic,

divisive, and domination-seeking,

to INFINITELY

greater universal

and TOTAL value-creating and sharing.

From being:

**selfish** ⇒ into being ⇒ **helpful**

**impatient,** **shortsighted** ⇒ into being ⇒ **patient and visionary**

**authoritarian,** ⇒ into being ⇒ **citizens' self-  
1 person dominating power** ⇒ **rule, electing  
manipulating representatives**  
**others** ⇒ **checks & balances  
rule-of-law-driven**

**relatively few rich people's** ⇒ into ⇒ **everyone's  
relatively limited profiteering** ⇒ **peace & prosperity growing  
infinitely greater including the rich**

I propose the most vivid evidence of humanity's great maturation is that in just the past 45 years, as a world, we have reduced extreme poverty by over 50%, due mostly to the supreme value-creating power of representative democracies building and spreading their wealth through commerce and aid. - Which has helped most of those millions of formerly desperately impoverished, starving people get on their feet and start contributing pricelessly to their local & our global economy.

And for you, like the vast majority of people who live in representative democracies, to be so generally unaware of that reality, is evidence that representative democracies are not all-wise or by any means perfect. They are messy as heck. Look at the U.S. now. But like I said, **representative democracies are approximately 20% more profitable** (per capita per year GDP) than **profiteering authoritarian-led states** = over 3700% more profitable every 20 years compounded. + Representative democracies' people are MUCH happier overall than **profiteering authoritarians**.

And that is **NOT** to demonize you, **China, Russia, India, Turkey, Brazil, Hungary**, and other countries who are led more by **profiteering authoritarians** or are leaning that way. You are ALL still AMAZING, **INFINITELY UNIVERSALLY HELPFUL PEOPLE.**

So a big part of this project's purpose is to help inspire **your profiteering authoritarian leaders** to capitalize infinitely **MORE** on **HOW your countries ...**

Tap "Next ►" below for the third and last bit of this part.

... got as great as they are, in order to make them  
**INFINITELY GREATER FOR BOTH YOUR LEADERS**

**AND FOR YOU, THEIR PEOPLE:**

**Through YOUR GREAT HELP TO EACH OTHER and THE WORLD.** So in the simplest terms, I propose that to do that **INFINITELY BETTER, AS ALL GOOD PARENTS TEACH THEIR TODDLERS, YOUR LEADERS NEED TO LEARN TO SHARE MUCH BETTER WITH OTHERS.**

**- I.e. share their power with others, through representative democracy.**

And **THEY** and **EVERYONE** else there and in the world **WILL BE INFINITELY RICHER** and **HAPPIER** overall.

Read down for my extremely rough-draft just-barely-starting ideas as to how that might manifest. And to get through that painful growing process with as little pain and as much success as possible, I propose that you just have one mutually helpful dialog at a time, using my Free Online Guide™, link below. And sometimes that can seem quite impossible. So if you and / or they would like me to help lead you / them through some of those dialogs, please let me know. I would love to. Thank you!
