

The Campaign for The Simplest Plan to Save the Economy and thus the World from Selfishness™

Media & influencers: Go down in history as
one the 1st to model & promote this plan.

Put 3 words 1st on your screens:

Helpfulness Above All.™

Everyone: Msg, post & tag those 2 + organizations
& leaders to do that too, to promote this world's most
personal-and-economy-boosting universal truth:

**Helping others the most you feel you can, at
work and personally, is how you and everyone
else already create your greatest rewards,
prosperity, and economy overall.**

THE MAIN REASON TO DO THAT:

Since world leaders **DO NOT** promote such value-
creation "above all," its **opposite**, **SELFISHNESS**
(self-help that hurts others), **ROBS** the focus, rewards,
and prosperity the world needs to **afford** to **solve**
all problems, in relationships, politics, business,
education, war, poverty, etc. **infinitely better**.

**Yes, all selfishness will take years to sort out. Use our
free online handbook, Only the Most Helpful Words™.**

So this plan is NOT about working harder overall to help others,
but EASIER, to get the most rewards and prosperity overall.

We apologize to all we have hurt by selfishly not
promoting helpfulness above all else before now.
