Helpfulness Above All™

* Increase everyone's peace & prosperity

❤️ infinitely faster than is now occurring. \$

- I.e., to help the world make its most mutually rewarding behavior, helpfulness, its top uniting priority, in all it does, to maximize everyone's peace & prosperity.*
NOT making helpfulness our world's top uniting priority has let its opposite, selfishness, divide & dominate us, especially through misleading political messages from all sides, & leaders, media, & tech who profiteer off that.

*E.g., in WWII the U.S. helped Europe's representative democracies beat profiteering authoritarian aggression. That made our economy the richest, to lead the world with <5.9% of its population. But we're now ceding leadership to China. - While we are 20% richer / yr = 3700% / 20 yrs / capita GDP compounded, than they & such states are! I am nonpartisan & seek maximum universally-profitable helpfulness. Helpfulnessaboveall.org.
