

NATIONAL DEBT & DEFICIT SOLUTION

THE NATIONAL DEBT & DEFICIT FEE

Associated with MiddleClassCapitalism.com

Demand that the President and Congress Enact the National Debt Deficit Solution NOW! It completely eliminates the National Debt and Deficit! And it is easy to do!

This is How THE NATIONAL DEBT & DEFICIT FEE will work:

As an example, a simple \$.05 National Debt Deficit Fee on every USA stock trade will eliminate the national debt in just 10 years, and will balance the entire federal budget in just a few years. It will generate about \$2.1 Trillion dollars annually based on USA 2016 Stock Value of \$42.071 Trillion traded. This amount of Stock Value will statistically and normally increase with stock values, even with periodic lows in the market. (Source: TheWorldTradeBank.com).

FEE FAIRNESS AND EQUITY

FAIRNESS: We ALL pay \$.05 or more in fees (tax dollars) on almost every product and service we all purchase now. Its time those benefiting most, particularly the wealthy receiving massive tax dollar benefits, pay a small fee of only \$.05 for the financial products and tax benefits and tax loopholes they receive from stocks they purchase. This will provide the revenues necessary to eliminate the National Debt, and balance the federal budget now and for future generations. It will then provide the required additional revenues, along with current revenues, to provide and preserve Medicare, Social Security, Healthcare, Infrastructure, Military and National Security, and all other funding needs of the federal government.

EQUITY: These fees applied to ALL stock trades provides an equitable and balanced stock trading field. There will be no negative stock or market effects of this fee. We ALL pay \$.05 or more fees (tax dollars) on almost every product and service we all purchase now. There is no good reason Congress should not include a fee on stock trades to eliminate national debt and deficits, and preserve and protect our national security, and our financial, healthcare, cyber and social security for America or any Democratic global trade country.
