📖 Document Navigator

hmt-1

Empower Your Workforce with Hands-Free Documents

Give your team access to all of your documents with just your voice.

OVERVIEW

Document Navigator on the **RealWear HMT-1**™ enables workers in the field to view technical guides, manuals and other critical documents in PDF or image file formats.

A SMARTER SOLUTION

Hands-free access to information at the right place and right time boosts operational efficiency, leading to fewer incidents of rework, better throughput, and happier customers.

The RealWear HMT-1™ is a powerful, fully rugged Android computer that is worn on the head and replaces the touch screen with an articulated micro-display to simulate a 7-inch tablet screen.

IMPROVING WORK NOW FOR:

- Test & Inspection
- Maintenance & Repair
- Manufacturing & Assembly

BENEFITS

Increase
- Safety
- Knowledge transfer
- Repair accuracy
- Information retrieval time
- Productivity

Decrease
- Task completion time
- Implementation cost
- Need for experts
- Distractions

| BEFORE	AFTER
Papers, folders and/or manuals get wet, ripped or wrinkled.	Hands-free so you can view docs and perform job at the same time.
Worker's eyes are unsafely exposed to or strained by the sun.	Safety glasses can stay on with the screen visible in any setting.
Tablets get lost or damaged in the field.	Computer is worn comfortably on the head throughout one's shift.
Taking your gloves on and off is inefficient and unsafe, racking up costs and risks.	Your voice becomes another set of hands so you're accelerating work, not stopping it.

Wiring diagrams   Installation instructions   Construction drawings

Safety procedures   Cutaway drawings   Assembly diagrams

APPLICATIONS

My Documents

My Photos

My Media

Barcode Reader

CAPABILITIES

Capabilities vary by software provider and may not be supported by all applications. Capabilities to consider when selecting applications include:

Access

- Drag and drop files onto the HMT-1™ with a cable, or wirelessly access documents stored online
- Load any content (i.e. diagrams, drawings, instructions) as PDFs or image files
- Access multi-page documents
- Load audio, music and video files as well

Load PDFs and image files

Quickly navigate to specific pages

View

- Pan in any direction and freeze on points of interest to navigate large schematics and drawings
- Bookmark important pages in a document and quickly jump to those pages later ("Add bookmark")
- Zoom in and out to examine details
- Quickly navigate to specific pages ("Go to page X")
- Tag equipment with QR codes; scan them with the HMT-1™ camera to quickly bring up the exact document, page and zoom level needed for the equipment at hand (https://www.realwear.com/bookmark)

Zoom in and out

Create shortcuts to documents and pages
