

# WoodTech Electronics Product Bulletin – 201230-1

## Bulletin Topic: Box Hill Compatible Hand Radio Remote

To all OEM's, WTE Service Partners and Mixer Repairers

Available NOW IS the Box Hill compatible Hand Radio Remote from WoodTech.

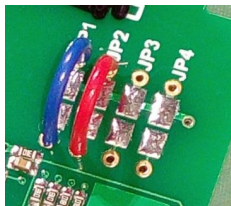

Part No: W005-039

Supplied with 1x Silicone Cover, 1x Lanyard and 1x 9V Rechargeable Battery.

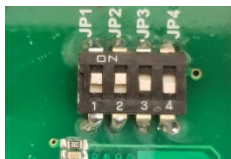

How to configure the new W005-039 WoodTech Hand Remote to work with a Box Hill system:

### Box Hill Jumper Configuration.

Box Hill uses combinations of red and blue jumpers on various models. Soldering wires or jumpers correctly can be difficult, especially when on site.

### WoodTech 4 way Dipswitch Configuration.

When using the new Box Hill Compatible Hand Radio Remote the configuration is very easy. Dipswitch 1(JP1) ON replaces the blue wire. Dipswitch 2(JP2) ON replaces the red wire.
