# THE ATHLETECH PROGRAM

AthleTech ( Formerly Elevate ) has been a hub for the Lorton community for the past 8 years. Our center provides free classroom usage, free seminars from tech professionals. sports teams in a fun and friendly environment and free community events. Our location allows children of all ages and from all walks of life to focus on their goals of being the best student athlete possible. Our motto is “ Give the kids whatever they need to succeed”. Our location is for kids only. Unlike community centers, our children have 100% access to the gym and classroom. It is strictly a kid’s center. Our mission was created by a group of former athletes that felt the responsibility to simply do more than an athletic program. We wanted to contribute to our community in Northern Virginia. We started as an LLC that created sports teams for our kids in Lorton. Our sports team operate under the name “Elevate” which stands for “Elevating Our Community”. What is special about our program is that we do not cut any player from any team. We have a place for everyone to develop and harness their skill set and have fun again in sports. Our community center is grounded in growth. We have created the perfect place where the classroom meets the gym. We have a 1000 sf classroom connected to our two full courts that we use as a tech lab. The members are free to use this area to study and do their homework any time they need within operating hours. Free laptops available if needed for in house or take home usage.

As we have grown over the past few years we have decided to become a community hub and a non profit. Our mission needs donors. We wish to give all members the technology access they need for free and to those members in our community who need it most. We currently run a laptop loaner program that needs updating. Our members can sign out a laptop any time they want for free. We also wish to have things the community can use for events such as birthdays and other non profit community events such as portable monitors, tables, chairs and similar items that would be free as well. Our mission is simple, provide the kids whatever they need at no cost.

# HOW YOU CAN HELP

AthleTech needs tech donations of all kinds. We are partnered with Rios Certified IT-Secured to safely wipe, erase and destroy data up to DoD standards with certificates being issued for free. Anything business enterprise related we will take as a donation and the company can receive a tax deduction at fair market value.

Assets that have been submitted include laptops, tablets, ipads, iphones, desktops, servers, server racks, switches, printers, ram, ssd, cables and more. We just ask that the donations are sufficient enough to use with our members of Lorton. We usually take a cargo van size load. We provide labor and documentation upon removal with donation sheets. We can get the material evaluated and send detailed manifests if requested. This will give a much more clear fair market value of the assets submitted.

All donations and subsequent actions will go to the non profit and the operational cost. We are lucky to have extremely low overhead and operate as a small entity within the 10,000 sf of our Community Center in Lorton. This means that your donations do not fund rent, salaries and miscellaneous costs. What we can not use, we offer to other non profits and if there is surplus we will use it for fundraising. For items that can not be saved or are too old we will recycle and keep it out of the landfill. The recycled material yields a return which will be put into the non profit.

Sincerely  
Team AthleTech
