Our Presence

Why PharmPRO Consulting?

Thought Leadership

- 400+ years of experience amongst the team
- Senior Leadership team with vast expertise
- Fast track, breakthrough and accelerate approvals

Team

Handpicked team with proven delivery backgrounds

Knowledge Repository

- Alliances with Academia
- Partnerships with Scientific community
- Support training new talent - Project Dontabhaktuni

Global Presence

Presence in 6 countries across globe that provides round-the-clock ability to deliver the outcomes

Value Proposition

Delays

01

Time to Hire

Time to hire a PhD Pharmaceutical Scientist according to Glassdoor.com is **2-8 months**

02

Unavailability of In-house Scientists

In-house scientists are stretched thin due to competing priorities and multiple projects

03

Outsourcing Reservations

Fear of outsourcing and unavailability of trusted outsourcing partners has led to project delays

Acceleration

Proven Team

- ✓ On- demand pharmaceutical experts
- ✓ Readily available experienced team
- ✓ Lowest attrition rate
- ✓ Pipeline through collaboration

Client Ready Associates

- Bootcamps:

Execution Approach

Pharmacometrics Team

Testimonials from Clients

Their pharmacometric capabilities were instrumental in establishing the optimal dose and regimen selection which moved our drug development programs resulting in several approvals.

Associate VP
Eli Lilly

We used their PK/PD, M&S expertise, CP writing for numerous CSR's reports as well as section 2.7.2 of CTD, at Daiichi Sankyo. Their commendable contributions can bring value to any organization.

Senior Director
Daiichi Sankyo

We worked on a European PIP, their PK modeling skills were instrumental in optimal dose & regimen selection; their regulatory strategy and submission experience was very helpful in expediting the approval.

Managing Director
CRQS, Germany
