30'W x 100'L x 15'H

5' On Center Hoop Spacing	\$12,829
4' On Center Hoop Spacing	\$14,589
Auto Dep	\$6742

These are basic estimates for stock size kits. We can customize greenhouse widths, heights and lengths to your needs, as well as the hoop spacing. Our stock sizes are in the cold frame hoop style. Gothic arch or other designs are available upon request.

Greenhouses with Auto Dep Systems longer than 80' may require 2 motors per side and 2 control boxes. These estimates are based on 1 control box and 1 set of motors on 1 side.

Vent kits are available for any size greenhouse and autodep system. Each system is unique as to the CFM requirements, types of fans (solar or AC) and whether or not light traps or thermostats are required.
