

Oil Gobbler - Tank Wash

Oil Gobbler product line is a water based 100% bio-degradable, non-toxic, non-hazardous, and non-corrosive cleaner that performs just how it sounds. GOBBLES up commodities such as crude oil (petroleum), fuel oils, diesel, BTEX, ethylene glycol and other common commodities seen in the tank industry. Whether you are cleaning rail tank cars, ISO tanks, bulk trucks, or stationary tanks, its a powerful, concentrated cleaner that will also bio-remediate the soils using specific enzymes to break up and digest waste. Reducing or eliminating hazardous disposal costs as well as health and safety risks. In addition, the Oil Gobbler Product line will divide the treated soils for easy separation, so you can recycle the cleaner and reduce your costs.

- **Power:** Surfactant emulsifies, solubilizes and encapsulates the soil, allowing Microbes to attack, digest and degrade the hydrocarbon.
- **Versatility:** Designed for submerged, agitated and/or pressure fed tank cleaning applications. Works on all types of metals, and safe for rubber parts. Excellent for degreasing action.
- **Fast:** Quickly breaks down dirt, grime, grease and oils from parts, and fast microbe action continues to degrade hydrocarbons to drive costs down.
- **Safe:** ZERO VOC's, pH neutral, non-corrosive, non-toxic, non-flammable, and 100% bio-degradable. A truly green cleaning product.
- **Extendable:** Settle, skim and recycle the cleaner up to 10 times.

"We put the green in the clean!"
