

**Announcement: Satellos CSO, Dr. Michael Rudnicki, to lead a multidisciplinary team in the discovery of innovative ways to combat skeletal muscle wasting in Duchenne Muscular Dystrophy**

*October, 2020*

Satellos Bioscience is proud to announce that our Chief Scientific Officer, Dr. Michael Rudnicki is now leading a multidisciplinary team of elite researchers funded by the Ontario Institute for Regenerative Medicine (OIRM) that are working towards improving the physical mobility and quality of life in DMD patients.

The full story behind this exciting announcement by OIRM can be found [here](#)
