## FEATURING

### A PLACE FOR THE HUNGRY THE THIRSTY AND THE LEGENDARY

Some people actually think the Wright Brothers perfected human flight. Around here, we know better. Carl Howelsen turned Steamboat into a playground, skis into wings, and mustaches into an art form. His adventurous spirits is our inspiration. Carl's Tavern is a place for adventurous spirits to call home. Here, the hospitality is genuine, the beer is cold, and the food is made from scratch. So come as you are, make yourself at home and share a few of your own legendary stories. Just don't try to one-up Carl; you'll hurt yourself.
