Jeff Brown, CEO & President

Who We Are

Safety professional Jeff Brown started his occupational medicine company in 1999 to serve the business community by treating their most valuable asset—employees—while providing a cost-effective health services solution for employers.

Proactive Occupational Medicine, Inc., dba Brown Medical provides on-site mobile medical units offering nursing, EMT, and first aid services that can be deployed anywhere in the United States, as well as a full service occupational medical clinics in Wheelersburg, Ohio, and Glen Dale, West Virginia.

Wheelersburg, OH Clinic

The Proactive Approach

At Proactive Occupational Medicine, Inc., we have a unique philosophy, focusing on collaboration with client safety management to decrease recordable work-related injuries, lost time, and off-site medical expenses. Our medical staff treats injuries in a proactive manner, rather than reactive, without compromising professional integrity.

“With Proactive Occupational Medicine, Inc., safety professionals can rest assured their team will receive quality occupational medical care.”

On-site Health Services

Proactive Occupational Medicine, Inc. offers adaptive on-site health services tailored to each client’s specific individual needs. When appropriate, workers are treated on-site, minimizing recovery time and allowing them to remain productive for our clients.

Prevention, Assessment & Treatment

Proactive Occupational Medicine, Inc. works as a team member that understands the importance of incident and injury prevention, as well as rapid and complete assessment when an injury occurs.

We build strong relationships with off-site providers who understand our philosophy of Proactive Occupational Medicine and the needs of our clients to ensure that employees remain safe, healthy, and injury-free. Emergency action plans will be established for the care of employees in cases requiring off-site treatment.

With Proactive Occupational Medicine, Inc., safety professionals can rest assured their team will receive quality occupational medical care.
