

# VR Proteus AUTOMATIC CABLE REELS

Experience powered winding in both directions! Developed for CCTV inspection trucks and modelled on the Proteus motorized cable reels, the new ACR reels give you fully synchronized pay in and pay out as well as increased cable capacity.

Fitted with high strength, Kevlar reinforced inspection cable, ultra-smooth operation is provided by the powerful, three phase motor and cable layering mechanism, specially designed for uninterrupted, tangle free pay-out and re-winding. A clear safety screen prevents contact with the cable while coiling. For additional safety there's a rigid lid and an instant motor stop button.

All operations can be controlled using the hand-held Bluetooth® joystick remote controller (included) which is also capable of controlling camera and crawler functions, or use the ACR's control panel buttons in conjunction with the dedicated keys and intuitive on-screen display on the Proteus control unit.

## ACR350 Specifications

<b>Product Code</b>	ACR350
<b>Cable Length</b>	1,150 ft
<b>Cable Diameter</b>	0.27 in
<b>Dimensions L x W x D</b>	26 x 15 x 26 in
<b>Power Supply</b>	90 – 254 VAC
<b>Power Consumption</b>	600W
<b>Environmental Protection</b>	IP45
<b>Weight</b>	99 lbs
<b>Remote Controller (included)</b>	RJP Joystick
<b>Van Guide Pulley (optional)</b>	VGP350

## ACR500 Specifications

<b>Product Code</b>	ACR500
<b>Cable Length</b>	1,640 ft
<b>Cable Diameter</b>	0.27 in
<b>Dimensions L x W x D</b>	26 x 22 x 26 in
<b>Power Supply</b>	90 – 254 VAC
<b>Power Consumption</b>	600W
<b>Environmental Protection</b>	IP45
<b>Weight</b>	121 lbs
<b>Remote Controller (included)</b>	RJP Joystick
<b>Van Guide Pulley (included)</b>	VGP500
