The Magnastick MSL Magnetometer seeks ferromagnetic objects by sensing their magnetic fields. Dual sensors detect the magnetic lines of flux naturally present in ferrous (iron) materials and are not affected by non-ferrous materials such as brass, aluminum, or copper.

Ergonomically designed and balanced, the Magnastick receiver is made of durable aluminum for years of trouble free use. The aluminum sensor tube is water proof up to the key pad and when submerged will locate ferrous objects under the water surface.

Magnastick MSL Specifications

Power: 6 "AA" (9v total) batteries

Battery Life: ± 100 hours intermittent operation (alkaline batteries)

Audio: Waterproof mylar speaker

LCD Display : Numeric digital signal strength, +/- polarity, Bar-graph, and low batty indicator

Weight: 2 lbs (1.kg) with batteries

Operating Temperature: -0° F to +120° F (-18° C to +49° C)

Length: 39.25"

Construction: Aluminum tube with recessed controls.

WARRANTY: One-year warranty from date of delivery against defects in material and workmanship (EXCEPT BATTERIES) on all instruments. This warranty is void if, after having received the instrument in good condition, it is subjected to abuse, unauthorized alteration or casual repair.
