

This a depiction of a "typical" vertical line. Not drawn to scale.

When you have to clear your drain, Snake to the Main

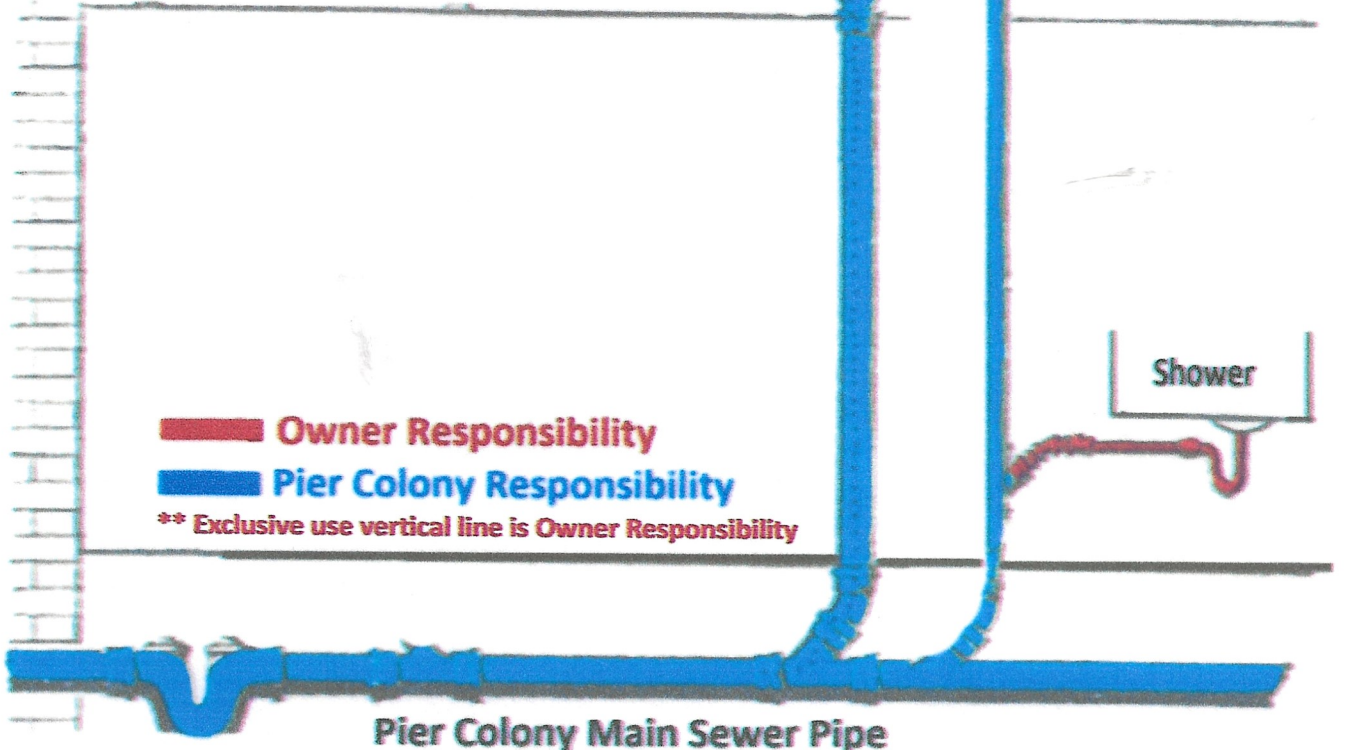

Initial clog

If you only snake to the vertical line, you may be pushing the clog into an area causing additional blockage which in turn could cause water intrusion back into your unit from neighboring units. Therefore; always be sure to snake all the way to the Main

-2" pipe for kitchen, sink and Shower

-3" pipe for toilet

Owner Responsibility

Pier Colony Responsibility

** Exclusive use vertical line is Owner Responsibility

Pier Colony Main Sewer Pipe
