

ENVIRONMENTAL POLICY

January 2024- Rev. D

CCMC Ltd was established with the object of providing outstanding level of management of all types of construction, to our clients. This environmental policy is supported by a programme of continuous improvement.

The Directors are fully responsible for the implementation and further development of this environmental policy. He believes all business should have duty of care to ensure that the waste they produce is handled safely and within the law. The Company has adopted Environment Management procedures, designed to meet, wherever possible and applicable, the requirement of BS EN ISO 14001 and is committed to:

- Use resources efficiently on construction and building sites.
- Reduce packaging waste on construction sites.
- Preventing soil damage during construction work.
- Recycle whatever materials that are possible.
- Make sure that all waste contractors are environmental friendly.
- Make sure that all Hazardous waste is handled & disposed of safely and in a proper manner.
- Comply with WEEE legislation. (Waste electrical and electronic equipment legislation.)
- Comply with rules on construction & transport of waste.

Environmental objectives are set for our business. These are checked by the management, actioned by all employees and supervised by our director. He personally makes sure that all the policies are followed by all the employees of the company. The Company believes that all our directly employed personnel together with any specialist sub-contractors and suppliers are responsible for the adherence to our environmental procedures and management programmes.

Our employees receive the appropriate levels of training awareness to ensure that due emphasis is placed on the protection of the Environment.

Recycling and re-use of materials will be carried out where possible and where not, due care will be exercised in respect of waste disposal in accordance with current guidelines and legislation.

This policy is communicated and made available to all company personnel, supply chain, members of the public and other interested third parties.
