Kaleidoscopes is a dynamic female duo combining their differences to create the extraordinary sound that is Kaleidoscopes. The Alt-R&B/Hip-Hop group consists of two musically inclined counterparts. Keira Nova, hailing from Inglewood, CA, was raised by soulful greats, who inspired her to create a profound sound driven by depth, control, and the power of her voice. LivFree, an impactful lyricist from Hammond, IN, uses past experiences to paint a picture of enlightened revelations. She pulls inspiration from artists such as: Twista, Do or Die, Mac Miller and Lloyd Banks. Kaleidoscopes' chemistry is built on the evolution and empowerment of one another to break barriers in sound while connecting listeners of all walks of life.
