

Dear Members,

Here is the summary of the 2021 Annual Report.

EXECUTIVE SUMMARY:

Precision Nanomedicine received 70666 total pageviews and had 29685 unique visitors since 2019, of which 41% came in 2021. The sixty-four articles published by the end of 2021 received a total of 145 citations, **2.27 per** article. Once we get into indexing, we should get a good impact score. DOI's of the 64 papers had been clicked a total of 29301 times, which indicates quite an interest.

You may look up your own numbers in the actual [issues](#).

Our growth continued. However, the rate of growth has recently been stagnant in many countries (see attachments).

Board Members, please, sign up to LinkedIn, Twitter, etc., and share our posts (if you don't have time, ask one of your postdocs). FIRST PUBLISH IN PRNANO THEN RECOMMEND US TO YOUR COLLEAGUES AS A FREE, QUICK, AND GOOD-QUALITY JOURNAL.

ACKNOWLEDGMENTS:

SPECIAL THANKS to those working diligently behind the scenes, i.e., Georgette B. Salieb-Beugelaar (Managing Editor) and Scott Bryant (Copyeditor).

WE APPRECIATE THE FINANCIAL SUPPORT OF THE EUROPEAN FOUNDATION FOR CLINICAL NANOMEDICINE and the STEVEN ELKES FOUNDATION, which have made possible to operate smoothly and not to charge APC-s in 2021.

Keep up the excellent work, and please, continue supporting our journal.

Best,

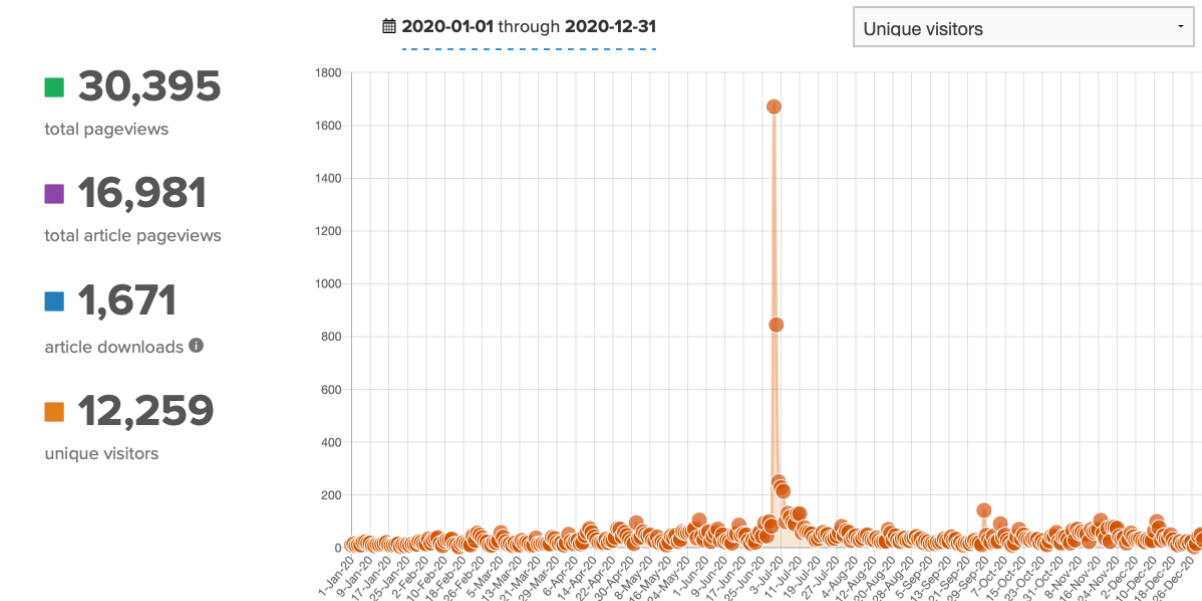

Lou, Georgette, and the team

Details:

1. PUBLISHING: It takes five days to accept and 21 days to reject a manuscript. Our average publication time is 16 days.
2. NEW BOARD MEMBERS:
 - A. We have welcomed Rogerio Gaspar, Director of Regulation at WHO, to the [Honorary Board](#).
 - B. More influential scientists joined our [Editorial Board](#) in 2021: Ruth Schmid, Hélder Santos, Keon W. Kang, Jay Suar, and Ilise Feitshans.
 - C. Ten scientists joined the newly launched [Rising Talents' List](#), Ana P. Ramos, Dolores Carrer, Wei Tao, Daniel Heller, Vo Van Toi, Tambet Teesalu, Huan Meng, Fabio R Formiga, and Abhay Chauhan.
3. OUTREACH:
 - a. We are in negotiations with several National Nanomed Societies for co-marketing agreements.
 - b. **The journal advertises meetings/events organized by our members for free. You may also request using this feature.**
4. NEWS: **We received feedback from Pubmed Central** that the scientific quality of the journal is good, but a few formal aspects must be fixed before Oct. 2021. It has been done, and we are waiting for the decision.

2021 DATA

PRNANO 4 closed on December 31, 2021. We have published 12 articles in four issues; see <https://precisionnanomedicine.com/issues>. The interest was dominated by COVID-related papers.

PRNANO 2019-2021 comparison

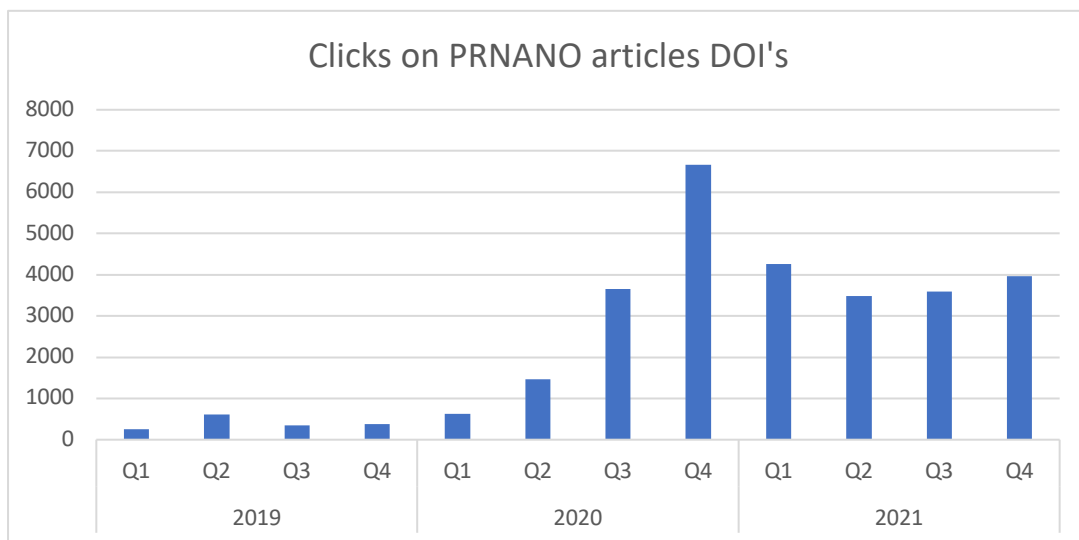

total pageviews

unique visitors

The overall rate of growth is linear (one article has generated a lot of interest, which is responsible for the 2020/Q4 higher value).

Readers come from 133 countries; those >5% are listed below.

Country	Page Views	%
US	21,897	30.99
SG	6,006	8.50
IN	5,441	7.70

GB	4,568	6.46
DE	3,567	5.05
