

ACCESSIBILITY ASSESSMENTS & REMEDIATION FOR LOCAL GOVERNMENT

Digital accessibility support for counties, municipalities, and cities.

Help ensure your websites, mobile apps, digital forms, and documents are accessible, usable, and aligned to current public-sector accessibility expectations.

Accessibility
compliance,
without
overwhelming
your team.

WHAT WE HELP YOU DO

- ✓ Assess websites, web applications, mobile apps, forms, and documents
- ✓ Identify accessibility barriers and prioritize remediation
- ✓ Improve ADA Title II readiness and WCAG 2.1 Level AA alignment
- ✓ Strengthen VPAT / ACR documentation and submission readiness
- ✓ Build practical governance, testing, and accessibility review processes

Bluejacket helps organizations prepare for ADA Title II digital accessibility expectations and improve alignment with WCAG 2.1 Level AA.

OUR 5-STEP APPROACH

1		ASSESS — inventory, audit, testing
2		ANALYZE — gaps, risk, priorities
3		REMEDiate — fixes, guidance, support
4		VALIDATE — retesting, documentation
5		SUSTAIN — training, governance, monitoring

COMMON ACCESSIBILITY SERVICES

 Website & Application Accessibility Audits	 PDF / Document Accessibility Review	 Accessibility Remediation Guidance	 VPAT / ACR Review & Support
 WCAG 2.1 Level AA Gap Analysis	 Screen Reader & Keyboard Testing	 Accessibility Policy & Process Development	 Staff Training & Ongoing Monitoring

WHY BLUEJACKET TECHNOLOGY

- Public-sector technology and compliance experience
- Practical, prioritized accessibility guidance for budget-conscious organizations
- Support for accessibility assessments, remediation planning, and conformance documentation
- Focus on sustainable accessibility processes, not one-time fixes
